BRIEF DESCRIPTION

A great fashion designer has excellent business skills. You understand budgets, marketing, and sales concepts that are vital to getting designs produced and sold. A number of people are involved in the creation of a garment, and as designer, you must be able to effectively communicate to everyone involved what he or she expects. You continually strive to do better than your peers to come up with quality innovative designs quickly. You have a great sense of style and are constantly coming up with new ideas for fashions. Excellent drawing skills mean you can easily sketch your ideas onto paper to start the production process. You have an eye for the materials of a garment, as well as the elements that make it unique, such as color and fabric. Great fashion designers work well as part of a team. Designing a garment for production involves the work of many, from pattern making to sewing to shipping. As designer, you must be able to work well with all involved. Good fashion designers can visualize a garment before ever putting an idea on paper. You can see the finished product well before production and can put your ideas into words and onto paper so others can grasp the idea as well.

BRIEF DESCRIPTION

A great fashion designer has excellent business skills. You understand budgets, marketing, and sales concepts that are vital to getting designs produced and sold. A number of people are involved in the creation of a garment, and as designer, you must be able to effectively communicate to everyone involved what he or she expects. You continually strive to do better than your peers to come up with quality innovative designs quickly. You have a great sense of style and are constantly coming up with new ideas for fashions. Excellent drawing skills mean you can easily sketch your ideas onto paper to start the production process. You have an eye for the materials of a garment, as well as the elements that make it unique, such as color and fabric. Great fashion designers work well as part of a team. Designing a garment for production involves the work of many, from pattern making to sewing to shipping. As designer, you must be able to work well with all involved. Good fashion designers can visualize a garment before ever putting an idea on paper. You can see the finished product well before production and can put your ideas into words and onto paper so others can grasp the idea as well.

trucks in India, leading tyre major, Apollo Tyres today introduced Endumaxx brand of tyres for this segment of vehicles. As per company estimates, the light truck radial category has a potential of 1,12,000 tyres per month in India, and it is growing at a much faster pace than any other segment.

Designed and developed at the company's Global R&D Centre, Asia in Chennai to suit the application and terrain requirements, the EnduMaxx LT tyres have been tested extensively for more than a year before being introduced today. Being produced out of Apollo Tyres' Vadodara plant, the company will be catering to the entire market in this segment with a capacity of 80,000 tyres per month.

Apollo EnduMaxx LT tyres would be available for vehicles like Mahindra Bolero & Maxitruck, Ashok Leyland Dost & Dost+ and Tata Xenon & Yodha. This segment of vehicles grew the fastest, by 20%, in the light commercial vehicle category in India, due to the operational economics in the pick-up segment, improved connectivity with the hub and spoke model and uptick in rural demand.

Commenting on the launch, Satish Sharma, President, Asia Pacific, Middle East & Africa, Apollo Tyres Ltd said "Being the leaders in the commercial vehicle segment, we were looking at gaining leadership in the pick-up vehicle segment as well. A cross-functional team comprising members from R&D, Manufacturing, Service, Business Quality and Marketing identified the gaps, which, along with our existing product experience, helped in developing the new product to suite the Indian market requirements. We are confident of gaining leadership in the pick-up vehicle segment as well with the EnduMaxx brand."

The company has adopted a 360 degree approach covering various aspects of tyre construction, design, process and compound in the making of Apollo EnduMaxx brand of tyres. They have been

BRIEF DESCRIPTION

Mahesh is a successful banking and Finance teacher, a leader , thinker and a philosopher. He spent 2 years of life as a teacher.

He always present to answer questions and clarify doubts of his disciples.

She removes bad Qualities of student and improves the character. He plays an important role of guiding the society.

Hence he is a respectable as god. He tries to inculcate good habits in students. He carry out the responsibility of converting children into a good citizen.

He works tirelessly all year long.

He teaches the lessons in a very interesting way. Even when students have doubts or questions, He never gets upset with them. His best quality is him loving nature.

There are many activities given at the end of every lesson and he makes us participate in all of them. Not only that, but he also encourages students to take part in drama and poem competitions.

Every student tries to talk in English even if the sentence sounds improper. He has taught us to never laugh at each other's mistakes. This has improved their spoken English in a great way.

Another great quality of hers is that he treats every child equally. After explaining the lesson to them, he asks each one of them different questions about the chapter.

He is the best person to talk to. His advice and suggestions are always positive.

Teachers have a huge responsibility that all students may not understand. He tries his best to provide an education, guidance and discipline despite the challenges students might impose on them.

He has all or most of the various characters imbedded in him.

She is an instructor of basic cosmetology in Tosham. she is having two years experience in basic cosmetology. she is highly dedicated to her profession and always gives her best to achieve her goals. she likes everything to be perfect in every way. she has great patience either it is regarding her profession or her personal life. she always motivate others towards their destination . she provides so many opportunities to the people for start up career .she always handles every situation with great presence of mind .all these qualities of her make her at the top of professional hierarchy. she providing best service 1. The ability to develop relationships with their students

The most frequent response is that a great teacher develops relationships with students. The research literature agrees with them: Teachers need to be able to build trusting relationships with students in order to create a safe, positive, and productive learning environment. For example, a student in Boston told us that great teachers are “Willing to listen to students when there is a problem.”

2. Patient, caring, and kind personality

Personality characteristics related to being a compassionate person and having a sensitivity to student differences, particularly with learners, was the second most frequently reported quality. Again, there is research to support that teacher dispositions are strongly related to student learning and development.

3. Knowledge of learners

This is a broad category that incorporates knowledge of the cognitive, social and emotional development of learners. It includes an understanding of how students learn at a given developmental level; how learning in a specific subject area typically progresses like learning progressions or trajectories; awareness that learners have individual needs and abilities; and an understanding that instruction should be tailored to meet each learner's needs. One student eloquently

GRADUATION

BRIEF DESCRIPTION

Herself Reena , belong to village Sunaria, Rohtak.

Reena was 19 years old when get married and came Bhiwani. After marriage wanted to complete studies but during that time thoughts of many people were similar that a girl should not study more she should get married and should do household work. But as she want to study more so after marriage her husband supported and she is completed graduation and then after completing graduation reena did I.T.I (hair and skin care) from Bhiwani ,on that time I.T.I. is not seen by society as a good profession but now it became a very good and respectable profession and after completing I.T.I I went to Faridabad for T.T.C (Teachers Training Course) Then after T.T.C did B.A from KU and now at present M.A from M.D.U .It was very difficult for to complete T.T.C. It was difficult to agree her family and to agree to Faridabad and to find a place in unknown city to stay . And it was difficult to study because she is a wife as well as mother of two children . On that time my son was of six years old and my daughter was of eleven years old and it's very difficult to leave child alone at home . During that time she faced a lot of problems she used to come on weekends at home . And for a women it's very difficult to go to another city alone and leave her children with her husband only and to travel on weekends and after coming back to do household work and to spend time with family and then steress of travelling and need rest that was very difficult. But finally husband supported her and allowed to go Faridabad for T.T.C. and without her husband support I think she was not able to do T.T.C. because he took the responsibility of both the children and responsibility of house work and his job . So today here and completed T.T.C just because of him. Our society thinking is not much huge people think that a lady have the responsibilities of house and children only and a men have responsibility of his job only but husband didn't think about society and some thing else he just supported . It was very difficult but faced all the problems together and successfully achieved her goal.

BRIEF DESCRIPTION

1. Background of person 2. What he/she has achieved in his/her life which can be inspiring for students. 3. What challenges he/she has faced to achieve that in life and how he/she overcome from those challenges.

Babita Soni belongs to a middle class and a conservative family. She is hardworking and dedicated to her profession, let alone be observative and creative. She understood the value of a well known maxim, "He who travels faster, travels alone." and yet she has obtained a huge success. Her expertise in her professions is something which we should be inspired of.

Challenges faced : She is a single mother or two daughters and still raised them good. Challenges never stopped her from achieving her goals, let it be the averse society or her own family. And now, she owns Modern Look Saloon.

How to overcome challenges : with passion and dedication towards her profession and love of her family. She never stopped marching ahead in her way to success. She had 3 paralysis attack which were unable to stop her to achieve a better future for her children and see herself getting succesful. She overcame major problems bearing a child.

After facing many challenges, she own her own beauty saloon where she provides best in class facilities and she is always dedicated in taking her profession to the top. and none the less she is also associated with a NGO and provides free sewing and beauty classes to girls who cant afford it. With no hesitation we can call her brave lady. And she teaches us that no matter what, family is your best strength.

DIPLOMA IN AYURVEDIC

BRIEF DESCRIPTION

She was born in merruth to a Royal Muslim family and because of an influential father and family name, she got the opportunity to complete her schooling in an Iconvent school. During that time, she developed a sudden inclination towards poetry and English Literature.

But before anything could be done about that, she was engaged when at the age of 14 and subsequently married at 16. She even gave birth to Nelofar in the same year itself. And although she always knew that, she was never meant to be a regular housewife, but eventually the routine of a housewife started to set in.

But Shahnaz being different decided to beat the odds and began studying beauty from the very next year. And over the next ten years, she also went on from London to Paris, Germany, Denmark to New York, to achieve the ultimate.

Life In Tehran

Ten years later at the age of 27, she had to move as her husband was got posted in Tehran as head of Foreign Trade with the STC.

During her stay there, while she dealt with skin disorders, she noticed that most of these problems were mainly due to the inclusion of synthetic cosmetics. That is when it clicked to her that, why shouldn't she take up the task and fix it by producing the same from herbs.

At that point, she had two options; either start with a private clinic for human cosmetic cures, or simply enter the market with better cosmetic products. She ended up choosing to start a herbal clinic, with a thought that, certainly it would bring in lesser money, but would definitely gain her a sense of satisfaction.

BRIEF DESCRIPTION

expert communication skills

superior listening skills

deep knowledge and passion for their subject matter

the ability to build caring relationships with students

friendliness and approachability

excellent preparation and organization skills

strong work ethic

community-building skills

high expectations for all

Each of these characteristics is described fully below. Although great teachers may also possess a number of other wonderful qualities (like a sense of humor, personality, flexibility, kindness, leadership, classroom management, a calm demeanor, experience, and the ability to multitask), these are the qualities the best teachers universally possess. Excellent Communication Skills

You'd think that the most important quality for a teacher to possess would be knowledge, since that's what the job is all about, after all: sharing knowledge. But no matter how knowledgeable a person is, if they can't convey what they know to others in a way that is not only understandable but engaging, the knowledge itself is useless.

If a teacher's communication skills (verbal, nonverbal, and visual, which involve speaking, writing, imagery, body language, and the organization of ideas into understandable structures) are good, they can convey knowledge with better skill and results.

Since a large part of good communication is knowing when the audience has understood, these teachers notice when they have communicated effectively and when they have not. They will often paraphrase, illustrate, or take another tact entirely when it becomes apparent that their communication has fallen flat or has not reached or

M tech Thesis work

This dissertation takes a principles approach to protect the network or system from unauthorized users.

Capturing of network traffic, performance and reports analysis generated by snort and corresponding

alert ratio of signatures for the particular attack are to be evaluated. This intrusion detection system is

one of the security defense tools for computer networks .Comparison and analysis of alerts generated

for the particular attack with respect to several protocols is made to show the strength and weakness of

this approach. This study will be useful for researchers to carry forward research on system security

for design of a ideal Intrusion and Detection System that not only will have identified strengths but

also overcome the drawbacks in this field of security. Under the guidance of Dr. Mukesh Kumar (HOD) & Associate Professor TIT&S Bhiwani.

CURRENT OCCUPATION:
ASI(CISF)

EXPERIENCE (IN YEARS) : 2 YEAR

HIGHEST QUALIFICATION:
B.TECH

BRIEF DESCRIPTION

Kamal Jeet Singh is very application Oriented and sometimes different from his peers. That being said, it's important to listen to your peers and get along- they often have something very useful to say and want to work with you. When he is in college he faced financial problem. The financial issue is the integrated part of the problem related to study in today's time where the cost to study has risen multi -fold.

You have to spend a good sum on academics today than some time back...

... you have to spend heavily on fees, syllabus books, notes, accommodation in case you are living away from your home, many necessary electronic gadgets like laptop, mobile and the list is long.

In some cases, student's get required economic support from their family and in some student need to tackle his own financials for education purpose.

Sometimes financial problems force them to dropout because they cannot afford it.

So better plan today if you are going to be the person to manage financial resources.

There is a limit how much you can save, but there is no limit how much you can earn.

So I am not going to tell you to save money by cutting down expenses and needs.

BETTER OPTION.

Get a part time work where you can earn some extra cash without disturbing your studies.

Know your strengths whether it is sketching, photography, content writing, and any other skills. Find some freelancers jobs. He has faced many Problems in his life and want to share his experience with students how he became ASI(CISF).

His highest qualification is Msc .He did his graduation BCA from Chinkara university punjab and masters MSC from Chaudhary Devi Lal University. He is very good in acedemics. He has very good technical skills as well as communication skills.

Teachers regularly inspire their students, whether they are aware of it or not. But all of us—even those in education—struggle under the weight of doubt and anxiety sometimes. We’re human, after all. We’ve chosen to share these inspiring teaching quotes with all you teachers out there because there are two things you need to know. First, we believe in you, and second, you are not alone.

As a teacher, you’re the most important part of a young student’s life. Your love of learning can be infectious and inspiring to any student you teach. Remember how you nurture the courage in a pupil’s heart. You are a tutor, an enabler, and a caregiver combined, and you can—and will—make a difference.

If there’s anyone who is in a position to bring positive change into the world every day, it’s a teacher. Don’t ever think that your efforts as a teacher are insignificant and make no difference. There is no telling what positive effect you will have on someone’s life, especially a student’s. Be brave, stay passionate about your kids and your work, and don’t give up—ever.

BRIEF DESCRIPTION

She is hard working dedicated person. This dissertation takes a principles approach to protect the network or system from unauthorized users.

Capturing of network traffic, performance and reports analysis generated by snort and corresponding

alert ratio of signatures for the particular attack are to be evaluated. This intrusion detection system is

one of the security defense tools for computer networks .Comparison and analysis of alerts generated

for the particular attack with respect to several protocols is made to show the strength and weakness of

this approach. This study will be useful for researchers to carry forward research on system security

for design of a ideal Intrusion and Detection System that not only will have identified strengths but

also overcome the drawbacks in this field of security. Website for T.I.T.S., Bhiwani (<http://www.titsbhiwani.org>)

Application: Contains all information and the latest events of college.

Tools Used: Microsoft Front Page 2003, ASP.NET 2.0

Description: T.I.T.S. website contains all the information about college like history,

faculty, hostels, library etc. It has a sleek look and a robust design. It also

has an interesting feature that it contains a database having all the

information about all the students of all batches. Registration and login

forms are also there. MD5 encryption is used to store passwords. It contains

all the latest events and happenings information. Online registration forms

EXPERIENCE (IN YEARS) : 16

HIGHEST QUALIFICATION:
M.SC, B.ED

BRIEF DESCRIPTION

Yogesh is very Passionate. He belongs to middle class family. He had faced lot of problems in his life. He has 16 year experience of teaching. He know how to handle student and how to overcome from any problem.

According to Yogesh sir ' Amount of energy we have - or we think we have - relates the amount of passion we have invested in our goals'

“This is why he called my side project The Passionate Project, because making it was like falling in love. He was so excited, he had great energy, he had butterflies.

He was getting home from work and he was staying up till 3am. To get on the computer and create this, and know he was doing something he absolutely loved, gave me that extra shot of energy.”

He has made website in his study time which gets most popular at that time and sell this site code and database.

When he give presentation, realise that he feel very good to give knowledge to others. After that day he is doing job as a teacher .. He has lot of experience of industry that helps the student.

Sant Kumar has done B.Tech in It. He has 2 year experience as It Recruiter and 3 years as VT . He has expert in computer networking. Which helps students to clear their topic. He wants to tell how he became Recruiter, journey of his life. Currently he doing job as It Recruiter and side by side sell his project which he had made in his free time. He knows about many trick how to hack someone l'd, networking terms etc. He goes through from very difficult time.

We fail forward by learning from our setbacks and making the necessary adjustments until we succeed. Every change we make, every person we meet, and every bit of information we absorb is coming together so we can create a different outcome.

We can't stop obstacles from appearing in life, but we can choose how to handle them. They may block our vision temporarily, but if we persevere then we can discover opportunities that have always been waiting for us on the other side. As we get more efficient with this process, we enable ourselves to see the positive side in even the toughest of situations.

BRIEF DESCRIPTION

I AM BELONG FROM MIDDLE CLASS FAMILY AND OCCUPATION OF MY FAMILY IS AGRICULTURE .

I HAD DONE BSC NURSING AND CURRENTLY WORKING AS NURSING OFFICER IN JINDAL HOSPITAL IN HISAR .

ABOUT NURSING :

Nursing is a profession within the health care sector focused on the care of individuals, families, and communities so they may attain, maintain, or recover optimal health and quality of life. Nurses may be differentiated from other health care providers by their approach to patient care, training, and scope of practice. Nurses practice in many specialties with differing levels of prescription authority. Many nurses provide care within the ordering scope of physicians, and this traditional role has shaped the public image of nurses as care providers. However, nurse practitioners are permitted by most jurisdictions to practice independently in a variety of settings. Since the postwar period, nurse education has undergone a process of diversification towards advanced and specialized credentials, and many of the traditional regulations and provider roles are changing

Nurses develop a plan of care, working collaboratively with physicians, therapists, the patient, the patient's family and other team members, that focuses on treating illness to improve quality of life. In the United States and the United Kingdom, advanced practice nurses, such as clinical nurse specialists and nurse practitioners, diagnose health problems and prescribe medications and other therapies, depending on individual state regulations. Nurses may help coordinate the patient care performed by other members of a multidisciplinary health care team such as therapists, medical practitioners and dietitians. Nurses provide care both interdependently, for example, with physicians, and independently as nursing professionals

Hospital-based training came to the fore in the early 1900s with an emphasis on practical

BRIEF DESCRIPTION

nurses develop a plan of care, working collaboratively with physicians, therapists, the patient, the patient's family and other team members, that focuses on treating illness to improve quality of life. In the United States and the United Kingdom, advanced practice nurses, such as clinical nurse specialists and nurse practitioners, diagnose health problems and prescribe medications and other therapies, depending on individual state regulations. Nurses may help coordinate the patient care performed by other members of a multidisciplinary health care team such as therapists, medical practitioners and dietitians. Nurses provide care both interdependently, for example, with physicians, and independently as nursing professionals

Hospital-based training came to the fore in the early 1900s, with an emphasis on practical experience. The Nightingale-style school began to disappear. Hospitals and physicians saw women in nursing as a source of free or inexpensive labor. Exploitation of nurses was not uncommon by employers, physicians, and educational providers

In the 19th and early 20th century, nursing was considered a women's profession, just as doctoring was a men's profession. With increasing expectations of workplace equality during the late 20th century, nursing became an officially gender-neutral profession, though in practice the percentage of male nurses remains well below that of female physicians in the early 21st century

देवेंद्र जी कोच होने साथ साथ एक अच्छे एथलीट भी रहे हैं

कोचिंग में उनका अनुभव बहुत अच्छा है ये बहुत मेहनती और बहुत ही कर्मठ व्यक्तित्व के धनी हैं

खेल प्रशिक्षण मानव शरीर को व्यवस्थित रूप से मजबूत करने के उद्देश्य से तरीकों, कौशल, साधनों, स्थितियों, ज्ञान, अनुभव का एक पूरा परिसर है। एथलीट की भावना की ताकत के विकास और मजबूती पर इसका एक महत्वपूर्ण प्रभाव है।

यह कहना सुरक्षित है कि खेल एक व्यापक व्यक्तित्व शिक्षा की संस्कृति है। संघीय मानक देश के नागरिकों के प्रशिक्षण के सभी चरणों को दर्शाता है, उनकी आयु, लिंग, चुने हुए विषयों की विशेषताएं और इस प्रकार की गतिविधि से जुड़ी सभी बारीकियों को ध्यान में रखता है। दूसरे शब्दों में, इसमें देश में शौकिया और पेशेवर खेलों पर सभी नियम हैं।

स्वस्थ दिमाग से स्वस्थ शरीर तक

शारीरिक संस्कृति के लिए सही दृष्टिकोण बनाने के लिए बचपन से ही शुरू किया जाना चाहिए। यह पहल पूरी तरह से बच्चे के माता-पिता की पसंद है। न केवल उनके भविष्य के एथलेटिक प्रदर्शन, बल्कि उनकी समग्र शारीरिक स्थिति भी इस बात पर निर्भर करती है कि वे अपने बच्चों को एक स्वस्थ जीवन शैली पर कब्जा करने में कितना सफल होते हैं। कई माता-पिता इसे समझते हैं और बच्चे के एथलेटिक विकास के लिए अपना समय और पैसा नहीं छोड़ते हैं। एक तरह का खेल प्रशिक्षण जीवन का एक तरीका है, जिसका उद्देश्य एक सुंदर काया, मजबूत, मजबूत शरीर, गति और उसके गुणों की ताकत है।

धन्यवाद
