3. He will be responsible for getting finalized all Court Matters.

4. He will be responsible for getting finalized all the Soil & Water

Conservation, Technical, Extension & Training and Project formulation

matters.

5. He shall be required to inspect the institutions under his Control and

after inspecting the institutions will record inspection notes.

6. Any other job assigned by the Head of Department.

A farmer's tasks vary according to the type of operation. A farmer who raises only crops will be responsible for preparing land for planting, caring for the crops and harvesting. Some farmers sell their own crops at market, while others have contracts with processing companies or other organizations. Crops can include livestock feed such as hay or grain, fruits and vegetables for human consumption or specialty crops such as cotton. In addition to planting, the farmer must keep fields watered, fertilized and free of weeds that compete with the crops. Farmers who raise livestock might also raise crops to feed their animals, in which case they may also need to store their crops to feed the animals during the winter months.

Livestock

Farmers who concentrate on livestock might breed and raise their own animals, although some buy their animals at a young age and then raise them

He is hard working. He teaches students with concepts clarity and perfection. He is honest people for his company who do every job in the right way that his company is going well and he has a good knowledge about automobile which can become a good for our students and Now, this topic is well cleared by all the children, and all the children like them very well and ask them for guest lecture. It is requested and he accepts this request on time and also guides our children so that our children are encouraged to move forward and he is aware of all the ongoing work related to his company. Regarding how the company is growing further, he repeatedly encourages the children to work hard. Anvh kids very well guide you, so that all children all the information regarding the automobile to achieve and promote children's skill with the information that children understand a lot of information from their experience and learn.

He is scored gud marks throughout my career....

He want to share his knowledge with students and would help them to do well in their academics as well as any competitive exam

I belive in building concepts first and then practicing on those concepts so that u dont need to... have sufficient knowledge and experience to deliver the best to my students and will give a specific way of study to enhance their correct mode of learning in this era of advance knowledge. I prefer to give the exact capsules required for the subject with the deep conceptual knowledge so that student .I believe I have an extraordinary opportunity to assist and support students through their individual learning paths and I start teaching from basics so that people can understand the subject easily.

I don't try to be the favorite teacher. Instead, I want to help the students to become self-sufficient. I am most proud when I can make a positive...

WORKSHOP MANAGER

EXPERIENCE (IN YEARS) : 4 YEAR

HIGHEST QUALIFICATION:

B.TECH

BRIEF DESCRIPTION

The manager is responsible for budgets for the purchase of materials, fixings and fastenings and machine tools to ensure the smooth progression of projects through the workshop. Daily attendance and sickness records have to be kept alongside individual records of what the workshop supervisor is responsible for the day to day safe and efficient running of the

mechanical workshop. The manager is responsible for budgets for the purchase of materials,

fixings and fastenings and machine tools to ensure the smooth progression of projects through

the workshop. Daily attendance and sickness records have to be kept alongside individual

records of what work is carried out and on which projects. This is for project costing purposes

and for traceability of components in case of problems arising. Traceability is a vital component of MSSL activity both at material and component level and the workshop manager is

responsible for maintaining a database of everything purchased work done and by whom. The

workshop manager is responsible for the quality of the work carried out and performs incoming

and outgoing inspection on all parts and assemblies or delegates that work. In a potentially

very dangerous working environment the manager is responsible maintaining safe working

practices, keeping COSHH information up to date and ensuring everybody is conversant with

this information. During busy periods, the workshop manager is required to undertake

manufacturing tasks and assist the through put of work through the workshop. The workshop is

the first point of contact for advice on best practices and methods of manufacture, for inside

and outside of the workshop. at work is carried out and on which projects.

HIGHEST QUALIFICATION:
M.TECH

BRIEF DESCRIPTION

himmat is my best friend.he is my classmate.he is hardworking and honest persion.he is very intelligent and super knowledge of every field.his father is a teacher and mother is a home maker.he belongs to a very simole family.he belongs to a rural area in haryana.he has university topper in our collage life.His aim is to be a successfull engineer.He want to make a vehicle manufacturing self plant.A great stepping stone into this industry is to do an automotive engineering degree. However, this is by no means essential. After all, you could also do a mechanical engineering or electrical engineering degree to gain the skills required for a career in this exciting industry.Automotive engineering is a great career to enter, but before you choose to enter the engineering field let us take a look at what it is and the outlook for the career. An automotive engineer are tasked with the development of passenger cars, buses, trucks, motorcycles and other passenger vehicles. They tend to design new products or upgrade or modify existing products. They are also expected to solve and troubleshoot engineering problems.

Major concerns of automotive engineers involve fuel efficiency, safety and design. When creating new or improved designs they usually use computer-aided design technologies to help them achieve their goals. Types of companies a automotive engineer would work for are automobile companies, consulting firms, transportation companies and manufacturing companies. Companies known to hire engineers are Ford Motor Company, Porche, GM and Toyota.

BRIEF DESCRIPTION

Mr. Priyaranjan Mothanty belongs to Gurugram. He proudly holds the position of Branch Manager in HDFC Bank in one of the Gurugram city. Hard work surely pays off and it is no child's play to reach such a position in millenium city. Like, most successful people, Mr. Mothanty too had his share of struggle during the formative years of his life. There are a number of challenges in keeping a bank manager's staff engaged. Bank work can be routine because of the repetitive tasks involved. Staff may also be demoralized if they have to regularly deal with difficult customers. Therefore, the bank manager needs to find ways to keep morale and productivity up and to enhance the employees' job satisfaction. He must develop a system of job rotation where staff periodically changes roles to avoid monotony and enhance their skills. He must also develop mechanisms to identify and reward outstanding performance. Determination, will power, perseverance, confidence were theirs in overcoming such hurdles.

BRIEF DESCRIPTION

Experience while Teaching students is filled with good and bad incidents. She had learn lots of thing like patience and add lots of things in her behaviour. Best thing in her Teaching experience is learning new rules and regulations. While attaining Teaching skills she came across no of Exams, Practical works , and some personal groom classes which makes her more confident. Presently she is working with Private School as a Teacher and she is using all her study experience there. Hard work surely pays off and it is no child's play to reach such a position in millennium city. Like, most successful people , Ms. Vaishali Bhardwaj too had her share of struggle during the formative years of his life. There are a number of challenges in keeping check and make students understand the subject matter with various examples. She has also develop mechanisms to identify and reward outstanding performance. Determination, will power , perseverance , confidence were there in overcoming such hurdles.

It's all healthy experience working here.

BRIEF DESCRIPTION

He is an honest man and a good beautician.

He is a good nature with client.

Here I got to interact with my clients and take care of many of their preferences.

This added to my people skills as I earned myself trust with some of the customers after doing their hair well. I gained interaction with clients further improving my people skills while still taking the course. This has proved as a foundation for my relationship with my employees and customers and also application of my skills to the clients in my shop today. At the end of this course, evaluation was based on how I interacted with the clients, people skills, how well I was competent with the course content, how I administered various cosmetic products to my clients and also in order to achieve this license, you had to be very practical and professional in your overall output. First students work with mannequins before actually working on actual people just in the same case as medicine students are first given corpses. After a little experience, they are taken to the floor and actually handed clients, concise care is needed as you apply the skills acquired appropriately. Practical work in cosmetology is the most important concept since the theoretical content without actual practice is baseless and void.

BRIEF DESCRIPTION

Beauty is the ascription of a property or characteristic to an person or provides a perceptual experience of pleasure or satisfaction. Beauty is studied as part of aesthetics, culture, social psychology, philosophy and sociology. An "ideal beauty" is an entity which is admired, or possesses features widely attributed to beauty in a particular culture, for perfection. Ugliness is the opposite of beauty.

The experience of "beauty" often involves an interpretation of some entity as being in balance and harmony with nature, which may lead to feelings of attraction and emotional well-being. Because this can be a subjective experience, it is often said that "beauty is in the eye of the beholder. Often, given the observation that empirical observations of things that are considered beautiful often align among groups in consensus, beauty has been stated to have levels of objectivity and partial subjectivity which are not fully subjective in their aesthetic judgement. Licensed Cosmetologist with over 6 years of experience providing customers with a full range of hair care services, building a strong client base and performing administrative duties. Aiming to use my proven customer service, sales, and communication skills to effectively fill the hair stylist position in your company.

Licensed Cosmetologist with over 6 years of experience providing customers with a full range of beauty services, building a strong client base and performing administrative duties. Aiming to use her proven customer service, sales, and communication skills to effectively for running her salon properly. Licensed Cosmetologist with over 6 years of experience providing customers with a full range of hair care services, building a strong client base and performing administrative duties. Aiming to use my proven customer service, sales, and communication skills to effectively fill the hair stylist position in your company. Beauty is the ascription of a property or characteristic to an person or provides a perceptual experience of pleasure or satisfaction. Beauty is studied as part of aesthetics, culture, social psychology, philosophy and sociology. An "ideal beauty" is an entity which is admired, or possesses features widely attributed to beauty in a particular culture, for perfection. Ugliness is the opposite of beauty.

The experience of "beauty" often involves an interpretation of some entity as being in balance and harmony with nature, which may lead to feelings of attraction and emotional well-being. Because this can be a subjective experience, it is often said that "beauty is in the eye of the beholder. Often, given the observation that empirical observations of things that are considered beautiful often align among groups in consensus, beauty has been stated to have levels of objectivity and partial subjectivity which are not fully subjective in their aesthetic judgement.

B.TECH IN COMPUTER SCIENCE

BRIEF DESCRIPTION

I am Manu Chawla, by profession, I am senior software programmer in fidelity international (Gurgaon) with approx. 6 year of experience. I did a Bachelor of technology in computer science in 2012 from Kurukshetra having an honours degree, In 2013 I have started my career in software development from Mohali. The profession that I have chosen is very interesting because every day I am facing a new problem and find its solution. In my experience, I have learnt a lot of programming languages and did work in very different domains like Sports domain, Custom Relationship domain and now days doing finance domain like trading, share etc..., Well I would say the toughest challenge in my life when I had completed my engineering and search for a job. I gave a lot of interviews every time got rejection. I was completely shattered, but my parents gave me moral support and got my first job in software development. So I would like to say don't give up in your life because I know sometimes you will get some failure but you need to overcome with your patience and definitely you will achieve your goal.

CURRENT OCCUPATION:
SOFTWARE ENGINEER

EXPERIENCE (IN YEARS) : 12

HIGHEST QUALIFICATION:
MCA

BRIEF DESCRIPTION

A Career as a Software Engineer Essays. Being a Software Engineer is more than just programming. It's a chance to help other people through the power of technology. Having this as a job gives engineers the power to influence other peoples life through programs that could help them with day to day tasks.

I thinks that Software Engineer is more than just programming. It's a chance to help other people through the power of technology. Having this as a job gives engineers the power to influence other peoples life through programs that could help them with day to day tasks.

Software Engineering is a good job because, the market is expanding for it, it pays well, and this job can help other people.

One of the skills that a Software Engineer needs is to have good communication. If a Software Engineer does not have good communication skills, how are they supposed to communicate with your boss, or talk to other engineers about a large project that is due.

Another skill Software Engineers need to have experience in programming, without this skill, Software Engineering is basically useless. Having experience in programming is a skill that Software Engineers need to know because this is the skill that will help an engineer build programs

The last important skill is to be flexible and adaptable. Everynow and then a new technology comes , so an engineer should be flexible enough to accept that change and upgrade himself.

I had all the above skills and thats the reason i can i am successfull in my work.

RAHULMAJRA@GMAIL.COM

DISTRICT : GURUGRAM

SKILL :
IT/ITES

CURRENT OCCUPATION:
TEACHER

EXPERIENCE (IN YEARS) : 8

HIGHEST QUALIFICATION:
MCA

BRIEF DESCRIPTION

There is a saying that a teacher is only as good as what they know. If a teacher lacks knowledge in a subject, that dearth of understanding is passed along to the students. And keep in mind that although formal education is one way a teacher might gain the knowledge they need in order to teach well, there are other ways.

Passion is infectious. Love of a subject matter inspires a person to learn more, dig deeper, and think harder about it, so passion inspires deeper knowledge. The best teachers are those that clearly love their subjects and pass that passion and desire to learn more on to their students. When the teacher not only has the right answer to a student's question but can expand the discussion with vivid examples, amusing illustrative anecdotes, and relevant facts, and when the teacher has a deep well of understanding and expertise to draw on, then every lesson is enriched, and every student might be inspired. Because it's the teacher's job to help students learn, they must be easy to approach. Students will have questions that can't be answered if the teacher isn't friendly and easy to talk to. The crabby, unapproachable, terse, mean, arrogant, rude, all-business teacher can't last long. If the students think of their teacher as their enemy, they certainly won't learn much. The best teachers are the most open, welcoming, and easy to approach.

BCA AND MCA IN COMPUTER
SCIENCE

BRIEF DESCRIPTION

I am Gagan Tewatia, by profession, I am Associate IT in Daffodil Software(Gurgaon) with approx. 5 year of experience. I did a Bachelor of computer science from Kurukshetra having an honours degree and also I did Master of computer science from Kurukshetra having an honours degree In 2014 I have started my career in software Testing from Gurgaon. The profession that I have chosen is very interesting because every day I am facing a new problem and find its solution. In my experience, I have learnt a lot of programming languages and did work in very different domains like Sports domain, Custom Relationship domain and now days doing finance domain like trading, share etc..., Well I would say the toughest challenge in my life when I had completed my engineering and search for a job. I gave a lot of interviews every time got rejection. I was completely shattered, but my parents gave me moral support and got my first job in software development. So I would like to say don't give up in your life because I know sometimes you will get some failure but you need to overcome with your patience and definitely you will achieve your goal.

BRIEF DESCRIPTION

Bharat to India Connect (B2Ic) is a voluntary initiative of industry professionals for Rural Economic Development by sustainable rural job creation, that becomes the nuclei for holistic Rural Development and Transformation. B2Ic initiative is self-funded by its benefactors and has no commercial interest. Our core focus areas will be:

- Rural Job creation in Farm Sector and Non-Farm Sector

Farm Sector: Facilitate technology adoption in farming for significantly increasing yields and improving farming efficiency, and enabling Farmer Producing Companies (FPCs) to develop farm produce ecosystem, creating jobs and wage enhancement

Non-Farm Sector: Facilitate micro and small scale industrial units for manufacturing and services and enable market access, creating sustainable jobs within the villages • Connecting the Dots for Holistic Rural Development:

There is excellent work being done in India in every aspect of Rural development by NGOs/NPOs/ FPOs/Foundations, and by successive Governments. B2Ic will facilitate the last mile access of solutions to the villages for their holistic development, specifically in infrastructure, health and education development

ANOOPSAINI@GMAIL.COM

DISTRICT : GURUGRAM

SKILL :
IT/ITES

CURRENT OCCUPATION:
SOFTWARE ENGINEER

EXPERIENCE (IN YEARS) : 5

HIGHEST QUALIFICATION:
MCA

BRIEF DESCRIPTION

I think that Software Engineer is more than just programming. It's a chance to help other people through the power of technology. Having this as a job gives engineers the power to influence other people's life through programs that could help them with day to day tasks.

Software Engineering is a good job because, the market is expanding for it, it pays well, and this job can help other people.

One of the skills that a Software Engineer needs is to have good communication. If a Software Engineer does not have good communication skills, how are they supposed to communicate with your boss, or talk to other engineers about a large project that is due.

Another skill Software Engineers need to have experience in programming, without this skill, Software Engineering is basically useless. Having experience in programming is a skill that Software Engineers need to know because this is the skill that will help an engineer build programs

The last important skill is to be flexible and adaptable. Every now and then a new technology comes, so an engineer should be flexible enough to accept that change and upgrade himself.

I had all the above skills and that's the reason I can be successful in my work.

CHHAVIEC1025@GMAIL.COM

DISTRICT : GURUGRAM

SKILL :
IT/ITES

CURRENT OCCUPATION:
SOFTWARE ENGINEER

EXPERIENCE (IN YEARS) : 6

HIGHEST QUALIFICATION:
B.TECH

BRIEF DESCRIPTION

I think that Software Engineer is more than just programming. It's a chance to help other people through the power of technology. Having this as a job gives engineers the power to influence other people's life through programs that could help them with day to day tasks.

Software Engineering is a good job because, the market is expanding for it, it pays well, and this job can help other people.

One of the skills that a Software Engineer needs is to have good communication. If a Software Engineer does not have good communication skills, how are they supposed to communicate with your boss, or talk to other engineers about a large project that is due.

Another skill Software Engineers need to have experience in programming, without this skill, Software Engineering is basically useless. Having experience in programming is a skill that Software Engineers need to know because this is the skill that will help an engineer build programs

The last important skill is to be flexible and adaptable. Every now and then a new technology comes, so an engineer should be flexible enough to accept that change and upgrade himself.

I had all the above skills and that's the reason I can be successful in my work.

DEVENDERYADAV@HSBC.CO.IN

DISTRICT : GURUGRAM

SKILL :
IT/ITES

CURRENT OCCUPATION:
BANK MANAGER

EXPERIENCE (IN YEARS) : 6

HIGHEST QUALIFICATION:
MBA

BRIEF DESCRIPTION

Mr Devender Yadav is reputed manager at HSBC.HSBC is one of the largest banking and financial services organisations in the world, with operations in 66 countries and territories. It aim to be where the growth is, enabling businesses to thrive and economies to prosper, and, ultimately, helping people to fulfil their hopes and realise their ambitions.He is responsible for the overall success of his bank branch. He worked to ensure that they are providing the highest possible degree of banking services and products to their customers along with exceptional customer service.

He proudly holds the position of Branch Manager in HSBC Bank.Hard work surely pays off and it is no child's play to reach such a position in millenium city. Like, most successful people , Mr. Devender Yadav too had his share of struggle during the formative years of his life.There are a number of challenges in keeping a bank manager's staff engaged. Bank work can be routine because of the repetitive tasks involved. Staff may also be demoralized if they have to regularly deal with difficult customers. Therefore, the bank manager needs to find ways to keep morale and productivity up and to enhance the employees' job satisfaction. He must develop a system of job rotation where staff periodically changes roles to avoid monotony and enhance their skills. He must also develop mechanisms to identify and reward outstanding performance. Determination, will power , preseverance , confidence were theys in overcoming such hurdles.

LALITABHATT121@GMAIL.COM

DISTRICT : GURUGRAM

SKILL :
IT/ITES

CURRENT OCCUPATION:
SOFTWARE ENGINEER

EXPERIENCE (IN YEARS) : 7

HIGHEST QUALIFICATION:
BSC

BRIEF DESCRIPTION

I think that Software Engineer is more than just programming. It's a chance to help other people through the power of technology. Having this as a job gives engineers the power to influence other people's life through programs that could help them with day to day tasks.

Software Engineering is a good job because, the market is expanding for it, it pays well, and this job can help other people.

One of the skills that a Software Engineer needs is to have good communication. If a Software Engineer does not have good communication skills, how are they supposed to communicate with your boss, or talk to other engineers about a large project that is due.

Another skill Software Engineers need to have experience in programming, without this skill, Software Engineering is basically useless. Having experience in programming is a skill that Software Engineers need to know because this is the skill that will help an engineer build programs

The last important skill is to be flexible and adaptable. Every now and then a new technology comes, so an engineer should be flexible enough to accept that change and upgrade himself.

I had all the above skills and that's the reason I can be successful in my work.

MEDIA & ENTERTAINMENT

CURRENT OCCUPATION:

GRAPHICS DESIGNER

EXPERIENCE (IN YEARS) : 3

HIGHEST QUALIFICATION:

M.SC

BRIEF DESCRIPTION

Sumit is a graphics designer and had a great experience in the field. He had worked freelancer and completed masters in graphics animation from kurukshetra university. He prepares work to be accomplished by gathering information and materials. Plans concept by studying information and materials. Illustrates concept by designing rough layout of art and copy regarding arrangement, size, type size and style, and related aesthetic concepts. As Graphic designer he typically do the following:

Meet with clients or the art director to determine the scope of a project

Advise clients on strategies to reach a particular audience

Determine the message the design should portray

Create images that identify a product or convey a message

Develop graphics for product illustrations, logos, and websites

Select colors, images, text style, and layout

Present the design to clients or the art director

Incorporate changes recommended by the clients into the final design

Review designs for errors before printing or publishing them

DISTRICT : GURUGRAM

SKILL :

MEDIA & ENTERTAINMENT

CURRENT OCCUPATION:

EDITOR AND DESIGNER

EXPERIENCE (IN YEARS) : 4

HIGHEST QUALIFICATION:

B.SC IN ANIMATION

BRIEF DESCRIPTION

Pardeep has done B.Sc in animation from kurukshetra and had a deep knowledge of subject. Students interested in graphic design programs should take basic art and design courses in high school, if the courses are available. Many bachelor's degree programs require students to complete a year of basic art and design courses before being admitted to a formal degree program. Some schools require applicants to submit sketches and other examples of their artistic ability. Graphic designers are expected to face strong competition for available positions. Many talented individuals are attracted to careers as graphic designers. Prospects will be better for job applicants who work with various types of media, such as websites and print publications. Graphic designers usually need a bachelor's degree in graphic design or a related field. Candidates for graphic design positions should demonstrate their creativity and originality through a professional portfolio that features their best designs.....

ROHIT12@GMAIL.COM

DISTRICT : GURUGRAM

SKILL :

MEDIA & ENTERTAINMENT

CURRENT OCCUPATION:

EDITOR/DESIGNER

EXPERIENCE (IN YEARS) : 3

HIGHEST QUALIFICATION:

M.SC IN ANIMATION

BRIEF DESCRIPTION

Rohit had done Masters in animation and had a good field knowledge. As a Graphic designers create visual concepts, by hand or using computer software, to communicate ideas that inspire, inform, or captivate consumers. They develop the overall layout and production design for advertisements, brochures, magazines, and corporate reports.

Graphic designers typically do the following:

Meet with clients or the art director to determine the scope of a project

Advise clients on strategies to reach a particular audience

Determine the message the design should portray

Create images that identify a product or convey a message

Develop graphics for product illustrations, logos, and websites

Select colors, images, text style, and layout

Present the design to clients or the art director

Incorporate changes recommended by the clients into the final design

They often select the type, font, size, color, and line length of headlines, headings, and text. Graphic designers also decide how images and text will go together on a print or webpage, including how much space each will have. When using text in layouts, graphic designers collaborate closely with writers who choose the words and decide whether the words will be put into paragraphs, lists, or tables. Through the use of images, text, and color, graphic designers can transform statistical data into visual graphics and diagrams, which can make complex ideas more accessible.

AKLOVERSH7@GMAIL.COM

DISTRICT : GURUGRAM

SKILL :

MEDIA & ENTERTAINMENT

CURRENT OCCUPATION:

FREELANCER

EXPERIENCE (IN YEARS) : 2

HIGHEST QUALIFICATION:

B.SC

BRIEF DESCRIPTION

Amit did his graduation and after that started as a freelancer and learnt various softwares related to designing and animation resulting in good skill development. As per amit, Students interested in graphic design programs should take basic art and design courses in high school, if the courses are available. Many bachelor's degree programs require students to complete a year of basic art and design courses before being admitted to a formal degree program. Some schools require applicants to submit sketches and other examples of their artistic ability.

Graphic designers must keep up with new and updated computer graphics and design software, either on their own or through formal software training programs. Professional associations that specialize in graphic design, such as AIGA and the Graphic Artists Guild, offer courses intended to keep the skills of their members up to date. If you are not sure whether you have a Creating or Persuading interest which might fit with a career as a graphic designer, you can take a career test to measure your interests.

MUKUREDOLENT@GMAIL.COM

DISTRICT : GURUGRAM

SKILL :

MEDIA & ENTERTAINMENT

CURRENT OCCUPATION:

GRAPHICS HEAD

EXPERIENCE (IN YEARS) : 3

HIGHEST QUALIFICATION:

M.SC

BRIEF DESCRIPTION

Mukesh after completing his graduation started working as a designer and gradually a team leader .He went through various phases and learnt a lot with many ups and downs in career .Graphic designers are expected to face strong competition for available positions. As per mukesh,Many talented individuals are attracted to careers as graphic designers. Prospects will be better for job applicants who work with various types of media, such as websites and print publications. Its a great field and students can make a good career option by opting media as a subject.In 2012, about 24 percent of graphic designers were self-employed. Graphic designers who are self-employed may need to adjust their workday to meet with clients in the evenings or on weekends. In addition, they may spend some of their time looking for new projects or competing with other designers for contracts.Graphic designers generally work in studios where they have access to drafting tables, computers, and the software necessary to create their designs. Although many graphic designers work independently, those who work for specialized graphic design firms often work as part of a design team. Some designers telecommute. Many graphic designers collaborate with colleagues on projects or work with clients located around the world.

SKILL :

PATIENT CARE ASSISTANT

CURRENT OCCUPATION:

GOVT. JOB

EXPERIENCE (IN YEARS) : 3

HIGHEST QUALIFICATION:

H.H.M.S

BRIEF DESCRIPTION

As a medical doctor, I have known the face of adversity. I have seen much of death and dying, suffering and sorrow. I also remember the plight of students overwhelmed by their studies and of those striving to learn a foreign language. And I recall the fatigue and frustration felt by young parents with children in need. A faithful woman can become a devoted daughter of God - more concerned with being righteous than with being selfish, more anxious to exercise compassion than to exercise dominion, more committed to integrity than to notoriety. And she knows of her own infinite worth. We need to find God, and he cannot be found in noise and restlessness. God is the friend of silence. See how nature - trees, flowers, grass - grows in silence; see the stars, the moon and the sun, how they move in silence... We need silence to be able to touch souls.

Security is mostly a superstition. It does not exist in nature, nor do the children of men as a whole experience it. Avoiding danger is no safer in the long run than outright exposure. Life is either a daring adventure, or nothing.

BRIEF DESCRIPTION

Background of the person is very good. He worked hard to reach that position. He told nursing is a truly inspiring and thoroughly rewarding career like no other for all of the amazing things we experience on a daily basis there are also tough parts to deal with, like stress, long hours & struggling to make time for family. If you have decided to become a nurse it's likely that you have been inspired by some wonderful and caring nurse that you encountered throughout your life. We know we have here some quality of a good nurse.

A caring nature - the best nurse are those that truly & deeply care for the patient they work with being able to comfort & support people who are ill.

Be empathetic - for most patients being in the hospital is a traumatic and emotional experience one of the most important nursing quality is the ability to empathize. Never think or treat your patients as a burden.

Be emotionally stable - one of the most ways to encourage emotional stability is to talk about the way you feel remember that you are not alone and many nurses can relate to how you are feeling.

Be adaptable - as a nurse everyday is different. You never know what is going to happen and if you ever think you do something will come among to surprise you.

Be hard working - not only do you have to constantly keep learning as a nurse but you also have to be a naturally hard working.

Be a good communication

The above characteristics of a nurse are what make them so special and good at their job.

DISTRICT : GURUGRAM

SKILL :

PATIENT CARE ASSISTANT

CURRENT OCCUPATION:

PVT. JOB

EXPERIENCE (IN YEARS) : 5

YEARS

HIGHEST QUALIFICATION:

OT. TECHNICIAN

BRIEF DESCRIPTION

As a medical doctor, I have known the face of adversity. I have seen much of death and dying, suffering and sorrow. I also remember the plight of students overwhelmed by their studies and of those striving to learn a foreign language. And I recall the fatigue and frustration felt by young parents with children in need. A faithful woman can become a devoted daughter of God - more concerned with being righteous than with being selfish, more anxious to exercise compassion than to exercise dominion, more committed to integrity than to notoriety. And she knows of her own infinite worth. We need to find God, and he cannot be found in noise and restlessness. God is the friend of silence. See how nature - trees, flowers, grass - grows in silence; see the stars, the moon and the sun, how they move in silence... We need silence to be able to touch souls.

Security is mostly a superstition. It does not exist in nature, nor do the children of men as a whole experience it. Avoiding danger is no safer in the long run than outright exposure. Life is either a daring adventure, or nothing.

SKILL :

PATIENT CARE ASSISTANT

CURRENT OCCUPATION:

STAFF NURSE

EXPERIENCE (IN YEARS) : 3YR

HIGHEST QUALIFICATION:

BSC NURSING

BRIEF DESCRIPTION

Background of the person is very good. He worked hard to reach that position. He told nursing is a truly inspiring and thoroughly rewarding career like no other for all of the amazing things we experience on a daily basis there are also tough parts to deal with, like stress, long hours & struggling to make time for family. If you have decided to become a nurse it's likely that you have been inspired by some wonderful and caring nurse that you encountered throughout your life. We know we have here some quality of a good nurse.

A caring nature - the best nurse are those that truly & deeply care for the patient they work with being able to comfort & support people who are ill.

Be empathetic - for most patients being in the hospital is a traumatic and emotional experience one of the most important nursing quality is the ability to empathize. Never think or treat your patients as a burden.

Be emotionally stable - one of the most ways to encourage emotional stability is to talk about the way you feel remember that you are not alone and many nurses can relate to how you are feeling.

Be adaptable - as a nurse everyday is different. You never know what is going to happen and if you ever think you do something will come among to surprise you.

Be hard working - not only do you have to constantly keep learning as a nurse but you also have to be a naturally hard working.

Be a good communication

The above characteristics of a nurse are what make them so special and good at their job.

SKILL :
RETAIL

CURRENT OCCUPATION:
AMAZON SELLER INDIA

EXPERIENCE (IN YEARS) : 12

HIGHEST QUALIFICATION:
DEPLOMA IN E-COMMERCE

BRIEF DESCRIPTION

He worked with Vishal mega mart and Amazon Seller India and achieved very good experience. Increasing traffic is probably a familiar goal for you. For pretty much every website, accomplishing whatever it's meant to do requires people visiting the site. But not all traffic is created equal. If your marketing is bringing in traffic, but it's mostly made up of people who will never have a need for your products or services, then it's not doing you much good. For instance, a B2B software company probably wouldn't benefit from a huge amount of traffic if most of it was coming from teenagers. Getting people to your website is a big part of being successful, but getting them to come back so you can form an ongoing relationship is even more important. One of the best tools you have to do that is your email list. When someone opts into your email list, they're opening the door to ongoing communication with your brand - which is a big deal! It's no surprise that email marketing has one of the highest conversion rates of the main online marketing activities.
