Ambitious employees are willing to go the extra mile whether to achieve company goals or make their way up the corporate ladder. They will not shirk from putting in their best because they set goals and high expectations for themselves. They also strongly yearn to progress in their career. Ambition triggers openness, creative ideas, and a go-getter attitude - all of which are good for your company. However, your ambitious candidate should have a sensible amount of emotional intelligence within him. This is so that he does not alienate most of his co-workers in the march towards his ambition.

BRIEF DESCRIPTION

HE IS A GOOD PERSON.HE HAS A POSITIVE MIND.HE IS A NETWORK ENGINEER.I work a lot. It doesn't feel like work because I love what I do, but I'm almost constantly doing something for my job. Every successful person I know has the same work ethic. Sure, I can get a hold of someone for a quick meal or drink, but we don't hang out day in and day out – we're just too busy for that. Average people don't prioritize their life this way.

Average people are always finding ways to get out of work. No matter what you may have seen in a commercial, there's no easy button to life. If you're not working towards your dreams, you'll never reach them. Either you'll make a career out of a menial job, or you'll shift back and forth between entry level drudgery until you retire or die. Along the road to success, you'll meet plenty of people who want to waste your time. You only have so much time in the day, and how you utilize that time is up to you. Whether you want to be a rapper, superhero, or scientist, your time is better spent in the lab than partying.

Unless your car is brand new and under warranty, it's likely to need some maintenance during a given year. This could range from minor stuff, such as a routine oil change, to deeper dish repairs.

Most car mechanics - independent or employed by a dealer or repair chain - are ethical people who won't steer you toward needless work. But they might also insist that you hire them to perform maintenance that isn't entirely necessary.

Their arguments are sound: Why wait until a small problem becomes a big one?

But it's also your money, and you should know about the things your mechanic will never tell you.

For the record, I had a mechanic in Los Angeles for years who was a model of being up front about what absolutely needed to be fixed on my cars - and what could wait, or even be ignored. But such a mechanic is quite rare. So the best thing you can do is educate yourself.

Here are ten tips about what even the best mechanic might not tell you:

Although degrees in investments and banking may be difficult to find, many programs have specializations in these areas as part of other programs. Finance, accounting and business are the most likely choices, but investment firms and banks may also be pleased to see degrees in economics, mathematics or engineering. Regardless of the program name, what hiring panels really want to see is that you're good with numbers, and each of these degrees demand that of their graduates. While in school, students should begin honing the skills they'll need to be successful investment bankers. Practicing presentations, familiarizing yourself with Microsoft PowerPoint and Excel, learning how to speak about numbers in an authoritative yet accessible way, and interacting with many different types of people are just a few of the ways to build ancillary skills while also digging into coursework.

Any experience is relevant even if it is in teaching. For the PG management courses, work experience is generally given weightage mostly to ensure that your work ethics are solved.

It would be worthwhile to note that work experience is given higher weightage if you have 2-4 years experience. Over 4 years experience you lose weightage i.e. they do not want too much experience. Again, the reason I have given above is that the only requirement is exhibited work ethics.

To elaborate, the problem with most freshers is that their expectations of work are very different from reality and till that pain is not overcome, sustaining a job is difficult. Computer operators monitor computer hardware systems to ensure that they are processing accurate data for the institution they are enlisted to support. Computer operators also maintain peripheral devices to assure that they work correctly. A large number of industries employ computer operators, including scientific institutions, engineering facilities and businesses. This career is often a stepping stone for positions in software engineering and computer programming. Computer operators often spend many hours sitting at a desk. To get started in this career, a high school graduate can earn an associate's degree. While it's not strictly required, many employers prefer an associate's as well as about 1-2 years of experience. The key skills that a computer operator will need are time management, operation and control, critical thinking, complex problem solving, active listening, monitoring, reading comprehension, and operation monitoring. The must also have the ability to use database user interface and query software, network monitoring software, object- or component-oriented software and operating system software.

I received good values in my life along with education. Because along with good education, good values also come. I had to work hard to get my education and due to which I was able to complete my education. We can all reach success only by making good efforts. We all know that only a good future can be kept by good education. I feel very proud to teach children and have been doing this work for the last 4 years. I belong to a middle family. I have taught at least 500 children belong to poor society. Along with education, I also teach honesty to the children and always inform the children about the great men in our country. And these great men, who have done great work in our country, also tell the children about them. Because along with the education of the children, it is also necessary to have social and cultural knowledge because it will lead to the full development of children.

He has a good experience of teaching. He is a creative teacher. Students enjoys their lecture. He explain every topic in easy way and solve the students query. Bring positive energy into the classroom every lecture. He has good communication skill. There is always something positive to be found in every lecture. There is a saying, "With great power, comes great responsibility". As a teacher, he is aware and remember the great responsibility that comes with this profession. he has a beautiful smile so don't forget to flash it as much as possible throughout the day. I know that you face battles of your own in your personal life but once you enter that classroom, you should leave all of it behind before you step foot in the door. Always remember that positive energy is contagious and it is up to you to spread it. Don't let other people's negativity bring you down with them. This is the fun part and absolutely important for being an effective teacher! Get to know your students and their interests so that you can find ways to connect with them.

BRIEF DESCRIPTION

Between estheticians, massage therapists, cosmetologists, barbers, hairstylists, nail artists, and more, the beauty and wellness industry has over one million employees across the U.S., according to the Bureau of Labor Statistics. While most of these employees are passionate about what they do, many still feel the burden of stress that stems from work and financial issues outside the workplace. Luckily, employers can offer tools, like financial wellness, to help their employees with these stressors.

Sources of Stress

Before identifying the tools that can help beauty and wellness employees' stressors, it's important to understand the most common factors affecting workers in this industry.

Long Hours: Clients often schedule their styling, makeup, spa, and wellness appointments when they're not working, which means a lot of early mornings, late evenings, and weekends for the employees performing these services. These long hours may mean more money spent on childcare, a higher chance of burn out, longer hours on their feet, and an increased exposure to chemicals that may lead to health issues later on.

Employee Wages: Similar to the restaurant industry, the beauty and wellness industry depends largely on tips from clients and not solely on the salary given by the employer. Due to the wide variety of services beauty and wellness employees provide, not every client tips the same and wages may vary from day to day and month to month.

Employee Personas

Each employee has a different financial journey, so understanding the financial priorities of different demographics can help employers tailor plans to best meet

BRIEF DESCRIPTION

My name is Rajender singh I did my education M. A. Sociology adolescent health councler civil hospitaluchana now I teach poor children. I do this work very sincerely. I take great pleasure in teaching children. I received good values in my life along with education. Because along with good education, good values also come. I had to work hard to get my education and due to which I was able to complete my education. We can all reach success only by making good efforts. We all know that only a good future can be kept by good education. I feel very proud to teach children and have been doing this work for the last 4 years.I belong to a middle family. I have taught at least 500 children belong to poor society. Along with education, I also teach honesty to the children and always inform the children about the great men in our country. And these great men, who have done great work in our country, also tell the children about them. Because along with the education of the children, it is also necessary to have social and cultural knowledge because it will lead to the full development of children.

It is someone who displays self control and considers others more important than self. It is someone who is a good friend, a good listener and someone who displays integrity dignity and accountability towards self and towards others. This person is not judgmental and holds no score of records against others but walks in forgiveness and understanding of others. This person does not bad mouth but rather stands up for someone. This is someone who would lay down his life for others not as a doormat, but as a true friend. There are few people today who fall into this category and if you find one, run with that person because that person is positive and someone you can always count on a true friend. Be Proactive. It's tempting to infer that as long as you avoid doing the things you know are bad (stealing, badmouthing, lying, etc.) then that means you're a good person, but there's more to it than that. By avoiding bad behaviour, you've made a big step towards becoming a good person, but you've only just begun. In order to be good, you actually have to do good things rather than just avoid doing bad things.

BRIEF DESCRIPTION

I am a self-starter with strong interpersonal skills. I work efficiently both as an individual contributor as well as along with a team. I seek new challenges and try to think out-of-the-box while looking for creative solutions to a given problem. Besides the details given in my resume, I believe in character, values, vision, and action. I am a quick learner and believe in learning from my mistakes for I strongly feel that this virtue will take me ahead in life and career. I can sum up my entire personal and professional life in three words - I can win! My dad and my current boss, both would vouch for the fact that I have a havoc wrecking never-say-die spirit! It is impossible to subdue me, no matter what. I also make sure that this attitude becomes contagious within my team. Some of my colleagues say that I encourage my teammates as a football coach during crunched situations. I am a dynamic figure. In my mind, I am often climbing mountains and crushing huge icebergs under my pirate ship! I have been known to remodel the electricity supply system of the entire city during lunch breaks. In my free time, I compose poetry or paint, which shows that I am an artistic person who can also manage free time efficiently! I agree that I love to work hard, but I am also a social butterfly and can party all day and night long for two days in a row! I am a great cook too and can stir up my favorite thirty-minute pasta dish in under fifteen minutes. I am an expert roller skater having performed at several Skate Shows and won a handful of them. I am also an automobile maniac and a gadget freak.

Basically from Jind done MCA from CRSU Jind. Getting most disciplined and sincere student award. To Build a solid professional Challenging Career & work for an organization that progress dynamically & give me a chance to update my knowledge & enhance my skill to establish a long term strong relationship with my sincere & best effort.

He would like to talk about a student who at a very young age dreamed of something big, got pressurized to pursue the most inevitable career choice for Indian students - Engineering but never got bogged down by pressure and founded a very successful company and has been a serial entrepreneur since in Computer science.

You can get good at anything, if you try hard enough. It's a matter of applying yourself. But as you decide what to do, think about the time you're spending, and whether it can be better used elsewhere. If you really like computers and programming, that's a good sign that computing is a good area for you.

It can be very frustrating for students to complete an assignment or even to behave in class if there aren't clearly defined objectives. Students want and need to know what is expected of them in order to stay motivated to work. At the beginning of the year, lay out clear objectives, rules, and expectations of students so that there is no confusion and students have goals to work towards.

BRIEF DESCRIPTION

Inder singh is best computer operator .He is work Hard in his office A good person is someone who displays love, joy, peace, kindness, goodness, humility, patience and who is faithful and endures all things. It is someone who displays self control and considers others more important than self. It is someone who is a good friend, a good listener and someone who displays integrity dignity and accountability towards self and towards others. This person is not judgmental and holds no score of records against others but walks in forgiveness and understanding of others. This person does not bad mouth but rather stands up for someone. This is someone who would lay down his life for others not as a doormat, but as a true friend. There are few people today who fall into this category and if you find one, run with that person because that person is positive and someone you can always count on a true friend.Be Proactive. It's tempting to infer that as long as you avoid doing the things you know are bad (stealing, badmouthing, lying, etc.) then that means you're a good person, but there's more to it than that. By avoiding bad behaviour, you've made a big step towards becoming a good person, but you've only just begun. In order to be good, you actually have to do good things rather than just avoid doing bad things.

BRIEF DESCRIPTION

My teaching philosophy is to be passionate, enthusiastic, and engaging every time that I give a lecture so students are excited to learn more about the topic and become active learners. I don't try to be the favorite teacher. Instead, I want to help the students to become self-sufficient, as scientists and physicians at the forefront of the field for the next half-century. I am most proud when I can make a positive difference in someone's academic career and see the amazing accomplishments of those whom I have mentored. I truly believe that the future is in the hands of the students we lead toward careers as scientists and physicians. While in research we are only as good as our last experiment, the students we mentor and their future students are a legacy that will endure. Finally, Henry Ford once said, "anyone who stops learning is old, whether at age 20 or 60". I truly believe learning is a lifelong process and my role as an educator is to instill lifelong learning in all my students

BRIEF DESCRIPTION

she is working in a school as a computer teacher from last 5 years and she has a good command on the computer science and have a good nature. Teaching can be a demanding profession. There are times when students can seem uninterested in learning and disruptive to the classroom environment. There are plenty of studies and educational strategies for improving student behavior. But personal experience may be the best way to show how to turn a difficult student into a dedicated pupil. I had such an experience: one where I was able to help change a student with major behavioral issues into a learning success story.

Tyler was enrolled in my senior American government class for a semester, followed by a second semester by economics. He had impulse-control and anger management issues. He had been suspended many times in previous years. When he entered my class in his senior year, I assumed the worst.

Tyle sat in the back row. I had never used a seating chart with students on the first day when I was just getting to know them. Every time I talked at the front of the class, I would ask questions of students, calling them by name. This helped me to get to know the students. Unfortunately, every time I called on Tyler, he would respond with a glib answer. If he got an answer wrong, he would become angry.

About a month into the year, I was still trying to connect with Tyler. I can usually get students involved in class discussions or at the least motivate them to sit quietly and attentively. By contrast, Tyler was just loud and obnoxious

Tyler had been in so much trouble through the years that it had become his modus operandi. He expected his teachers to know about his referrals, where he was sent to the office, and suspensions, where he was given mandatory days to stay out of school. He would push every teacher to see what it would take to get a referral. I tried to outlast him. I had rarely found referrals to be effective because

I received good values in my life along with education. Because along with good education, good values also come. I had to work hard to get my education and due to which I was able to complete my education. We can all reach success only by making good efforts. We all know that only a good future can be kept by good education. I feel very proud to teach children and have been doing this work for the last 4. I belong to a middle family. I have taught at least 400 children belong to poor society. Along with education, I also teach honesty to the children and always inform the children about the great men in our country. And these great men, who have done great work in our country, also tell the children about them. Because along with the education of the children, it is also necessary to have social and cultural knowledge because it will lead to the full development of children.

I am an abstract artist, an engineer at heart, and a ruthless bookworm. I have a great dressing sense and I love to follow fashion trends closely. Being a cleanliness freak, I like to keep my den and my work desk spic and span at all times. I am not an outgoing person, and love to stay indoors with a book instead of partying in a regular weekend. I love my pets, yes I have four dogs and they are my family now. If I do go out, I prefer to go on solo trips. Last summer I have a weakness for fresh flowers, which obviously means that gardening is my hobby. I can sum up my entire personal and professional life in three words - I can win! My dad and my current boss, both would vouch for the fact that I have a havoc wrecking never-say-die spirit! It is impossible to subdue me, no matter what. I also make sure that this attitude becomes contagious within my team. Some of my colleagues say that I encourage my teammates as a football coach during crunched situations. I am a dynamic figure. During my under graduation, I completed several projects on testing, where I excelled in my work and even got certificates for the same. Now, I am interested in expanding my career graph by joining your reputed organization as a software tester where I also look forward to attaining people management opportunity in my area of work.

BRIEF DESCRIPTION

1 नॉलेज - एक शिक्षक होने के नाते अपने विषय से जुड़ी सभी जानकारियां आपको पता होनी चाहिए। इसके अलावा करंट विषयों का ज्ञान होना भी उतना ही जरूरी है, ताकि आप विद्यार्थियों के हर सवाल का जवाब दे सकें।

2 प्रेजेंटेशन - शिक्षक होने के लिए ज्ञान होना जितना जरूरी है, उससे भी ज्यादा जरूरी है उसे विद्यार्थियों तक पहुंचाने का तरीका। हर विद्यार्थी का मानसिक स्तर अलग होता है, ऐसे में प्रेजेंटेशन ऐसा होना चाहिए जो हर किसी की समझ में आसानी से जा जाए।

3 फ्रेंडली नेचर - शिक्षक और विद्यार्थी के बीच अनुशासन जरूरी है, लेकिन समय के साथ साथ अब दोस्ताना व्यवहार की दरकार है। इससे आपको स्टूडेंट्स को समझने और समझाने दोनों में आसानी होगी। इससे अंतर्मुखी विद्यार्थी भी खुल सकेगा और डर दूर होगा।

4 अनुभव और उदाहरण - सिर्फ विषय से जुड़ी जानकारियां ही नहीं बल्कि अपने अनुभव भी विद्यार्थियों से बांटे। इससे आप उनके साथ बेहतर तालमेल बैठा पाएंगे। उदाहरण देकर समझाएंगे, तो बच्चों को लंबे समय तक याद रहेगा।

5 जीवन की समझ - एक बेहतर शिक्षक वही होता है जो अपने विद्यार्थी को जीवन में अच्छे बुरे की पहचान, उज्ज्वल भविष्य के लिए जरूरी बातें, व्यवहार और मानवता की सीख दे। क्योंकि ये उनके जीवन की बुनियादी जरूरतें हैं। इसलिए अगर बच्चा पढ़ाई में अच्छा नहीं कर पा रहा है, तो उसे समझाएं कि वह जीवन में जो बेहतरीन कर सकता है करे, जीवन सिर्फ पढ़ाई तक ही सीमित नहीं है, उससे आगे भी बहुत कुछ है।

My name is Naresh Lohan. I did my education M.Tech in computer science and now I teach poor children. I do this work very sincerely. I take great pleasure in teaching children. I received good values in my life along with education. Because along with good education, good values also come. I had to work hard to get my education and due to which I was able to complete my education. We can all reach success only by making good efforts. We all know that only a good future can be kept by good education. I feel very proud to teach children and have been doing this work for the last 2 years. I belong to a middle family. I have taught at least 100 children belong to poor society. Along with education, I also teach honesty to the children and always inform the children about the great men in our country. And these great men, who have done great work in our country, also tell the children about them. Because along with the education of the children, it is also necessary to have social and cultural knowledge because it will lead to the full development of children.

BRIEF DESCRIPTION

मनुष्य एक सामाजिक प्राणी है। इस नाते उनके लिए कुछ ऐसे कर्तव्यनिर्धारित है जिसका पालन करना अति आवश्यक है। अध्यापक / गुरु ईश्वरका दूसरा रूप माना गया है। हमारे धर्म में तीन ऋण माने गये हैं। पितृ ऋण, ऋषि ऋण और देव ऋण। इन तीनों ऋणों को पूर्ण करने से मनुष्य का जीवनसफल हो जाता है। जब मनुष्य अपने माता-पिता की सेवा तन और मन सेकरता है तब वह पितृ ऋण से मुक्त होता है उसी प्रकार ऋषि ऋण तभी पूर्णहोता है जब विद्यार्थी शिक्षा अध्ययन कर अपने माता-पिता और अध्यापकको सम्मान देता है। प्राचीन काल में विद्यार्थी गुरु कुल में शिक्षा करते थे। वेसभी प्रकार से सफल होकर ही तथा गुरु दक्षिणा देकर गुरुकुल से लौटते थे। उस समय विद्यार्थी वेद, शास्त्र,पुराण तथा मानव मूल्य के ज्ञान से परिपक्व हो जाते थे। परन्तु आज स्थिति कुछ अलग है। आज की प्रणालीमें बच्चे गुरुकुल में शिक्षा अध्ययन न कर प्राथमिक और माध्यमिक में पढ़ने जाते हैं। अध्यापक के उत्तरदायित्वबनता है कि वे अपने बच्चों को सही शिक्षा, प्रेरणा, सहनशीलता, व्यवहार में परिवर्तन तथा मार्ग दर्शक प्रदानकरे, उनके भविष्य को उज्ज्वल बनाए।

एक आदर्श अध्यापक अच्छे और श्रेष्ठ गुणों से परिपूर्ण होता है। उन्हें अपने समय का सदुपयोग करना चाहिए। जो अध्यापक समय का पालन करता है और योजना बनाकर विषय अनुसार ज्ञान प्रदान करता है वही सही गुरुकहलाता है। समय बड़ा बलवान होता है। संसार में सब कुछ खो जाने के बाद लौटाया जा सकता है परन्तुसमय जा कर पुनः वापस नहीं आता। अध्यापक को समय का पालन करना चाहिए। समय अनुसार अपनापाठ्यक्रम पूरा करने से बाद में उसी की प्रशंसा की जाती है। अगर विद्यार्थी जीवन का एक भी क्षण व्यर्थ मेंबीत जाए तो जीवन पर्यन्त हाथ / पछताना पड़ जाएगा।

एक आदर्श गुरु में नम्रता और श्रद्धा होती है। इसीलिए कबीर जी ने कहा था कि ' ऐसी बाणी बोलिए मन काआपा खोय,

BRIEF DESCRIPTION

Karishan is best computer operator in DHBVN He's done 1000 elect. Bills in DHBVN. A good person is someone who displays love, joy, peace, kindness, goodness, humility, patience and who is faithful and endures all things. It is someone who displays self control and considers others more important than self. It is someone who is a good friend, a good listener and someone who displays integrity dignity and accountability towards self and towards others. This person is not judgmental and holds no score of records against others but walks in forgiveness and understanding of others. This person does not bad mouth but rather stands up for someone. This is someone who would lay down his life for others not as a doormat, but as a true friend. There are few people today who fall into this category and if you find one, run with that person because that person is positive and someone you can always count on a true friend. Be Proactive. It's tempting to infer that as long as you avoid doing the things you know are bad (stealing, badmouthing, lying, etc.) then that means you're a good person, but there's more to it than that. By avoiding bad behaviour, you've made a big step towards becoming a good person, but you've only just begun. In order to be good, you actually have to do good things rather than just avoid doing bad things.

BRIEF DESCRIPTION

My teaching philosophy is to be passionate, enthusiastic, and engaging every time that I give a lecture so students are excited to learn more about the topic and become active learners. I don't try to be the favorite teacher. Instead, I want to help the students to become self-sufficient, as scientists and physicians at the forefront of the field for the next half-century. I am most proud when I can make a positive difference in someone's academic career and see the amazing accomplishments of those whom I have mentored. I truly believe that the future is in the hands of the students we lead toward careers as scientists and physicians. While in research we are only as good as our last experiment, the students we mentor and their future students are a legacy that will endure. Finally, Henry Ford once said, "anyone who stops learning is old, whether at age 20 or 80". I truly believe learning is a lifelong process and my role as an educator is to instill lifelong learning in all my students

You can get good at anything, if you try hard enough. It's a matter of applying yourself. But as you decide what to do, think about the time you're spending, and whether it can be better used elsewhere. If you really like computers and programming, that's a good sign that computing is a good area for you.

It can be very frustrating for students to complete an assignment or even to behave in class if there aren't clearly defined objectives. Students want and need to know what is expected of them in order to stay motivated to work. At the beginning of the year, lay out clear objectives, rules, and expectations of students so that there is no confusion and students have goals to work towards.

BRIEF DESCRIPTION

Mahabir is best computer operator in Hospital. A good person is someone who displays love, joy, peace, kindness, goodness, humility, patience and who is faithful and endures all things. It is someone who displays self control and considers others more important than self. It is someone who is a good friend, a good listener and someone who displays integrity, dignity and accountability towards self and towards others. This person is not judgmental and holds no score of records against others but walks in forgiveness and understanding of others. This person does not bad mouth but rather stands up for someone. This is someone who would lay down his life for others not as a doormat, but as a true friend. There are few people today who fall into this category and if you find one, run with that person because that person is positive and someone you can always count on a true friend. Be Proactive. It's tempting to infer that as long as you avoid doing the things you know are bad (stealing, badmouthing, lying, etc.) then that means you're a good person, but there's more to it than that. By avoiding bad behaviour, you've made a big step towards becoming a good person, but you've only just begun. In order to be good, you actually have to do good things rather than just avoid doing bad things.

My teaching philosophy is to be passionate, enthusiastic, and engaging every time that I give a lecture so students are excited to learn more about the topic and become active learners. I don't try to be the favorite teacher. Instead, I want to help the students to become self-sufficient, as scientists and physicians at the forefront of the field for the next half-century. I am most proud when I can make a positive difference in someone's academic career and see the amazing accomplishments of those whom I have mentored. I truly believe that the future is in the hands of the students we lead toward careers as scientists and physicians. While in research we are only as good as our last experiment, the students we mentor and their future students are a legacy that will endure. Finally, Henry Ford once said, "anyone who stops learning is old, whether at age 20 or 80". I truly believe learning is a lifelong process and my role as an educator is to instill lifelong learning in all my students

BRIEF DESCRIPTION

She has worked as a computer teacher in school. who is very helpful for us in the field of it/ites and also give important knowledge about this field.

A career as a computer teacher offers many different opportunities. A computer teacher might cover basic keyboarding and computer functions for teenagers in public school or adults who are updating their work skills in a night class, or they may teach more complicated elements of computer science to college students. The duties of a computer teacher typically include creating lesson plans, evaluating student performance, maintaining classroom records, meeting with parents, teachers, and other professionals, updating curriculum, and participating in campus events. To teach in a public secondary school, a bachelor's degree in computer science is usually required. A semester of student teaching is also needed and is usually completed within the bachelor's degree program. A master's degree is typically the minimum educational requirement to teach at a college or university. Because requirements vary, contact the Board of Education in the state in which you wish to teach.

BRIEF DESCRIPTION

HE IS A GOOD PERSON.HE HAS A POSITIVE MIND.HE IS A NETWORK ENGINEER.I work a lot. It doesn't feel like work because I love what I do, but I'm almost constantly doing something for my job. Every successful person I know has the same work ethic. Sure, I can get a hold of someone for a quick meal or drink, but we don't hang out day in and day out – we're just too busy for that. Average people don't prioritize their life this way.

Average people are always finding ways to get out of work. No matter what you may have seen in a commercial, there's no easy button to life. If you're not working towards your dreams, you'll never reach them. Either you'll make a career out of a menial job, or you'll shift back and forth between entry level drudgery until you retire or die. Along the road to success, you'll meet plenty of people who want to waste your time. You only have so much time in the day, and how you utilize that time is up to you. Whether you want to be a rapper, superhero, or scientist, your time is better spent in the lab than partying.

BRIEF DESCRIPTION

Surender is best computer operator in ITI Jind. A good person is someone who displays love, joy, peace, kindness, goodness, humility, patience and who is faithful and endures all things. It is someone who displays self control and considers others more important than self. It is someone who is a good friend, a good listener and someone who displays integrity dignity and accountability towards self and towards others. This person is not judgmental and holds no score of records against others but walks in forgiveness and understanding of others. This person does not bad mouth but rather stands up for someone. This is someone who would lay down his life for others not as a doormat, but as a true friend. There are few people today who fall into this category and if you find one, run with that person because that person is positive and someone you can always count on a true friend. Be Proactive. It's tempting to infer that as long as you avoid doing the things you know are bad (stealing, badmouthing, lying, etc.) then that means you're a good person, but there's more to it than that. By avoiding bad behaviour, you've made a big step towards becoming a good person, but you've only just begun. In order to be good, you actually have to do good things rather than just avoid doing bad things.

BRIEF DESCRIPTION

My teaching philosophy is to be passionate, enthusiastic, and engaging every time that I give a lecture so students are excited to learn more about the topic and become active learners. I don't try to be the favorite teacher. Instead, I want to help the students to become self-sufficient, as scientists and physicians at the forefront of the field for the next half-century. I am most proud when I can make a positive difference in someone's academic career and see the amazing accomplishments of those whom I have mentored. I truly believe that the future is in the hands of the students we lead toward careers as scientists and physicians. While in research we are only as good as our last experiment, the students we mentor and their future students are a legacy that will endure. Finally, Henry Ford once said, "anyone who stops learning is old, whether at age 20 or 80". I truly believe learning is a lifelong process and my role as an educator is to instill lifelong learning in all my students

Every successful person I know has the same work ethic. Sure, I can get a hold of someone for a quick meal or drink, but we don't hang out day in and day out – we're just too busy for that. Average people don't prioritize their life this way.

Average people are always finding ways to get out of work. No matter what you may have seen in a commercial, there's no easy button to life. If you're not working towards your dreams, you'll never reach them. Either you'll make a career out of a menial job, or you'll shift back and forth between entry level drudgery until you retire or die. Along the road to success, you'll meet plenty of people who want to waste your time. You only have so much time in the day, and how you utilize that time is up to you. Whether you want to be a rapper, superhero, or scientist, your time is better spent in the lab than partying.

BRIEF DESCRIPTION

He is actually from professional background. he have done bsc and msc in psychology from kurkshetra university kurkshetra. he is well professional and well behaved. he knows enough about healthcare and changes in growing adult. now a days he is working with govt authorities on adolescence.

As medical students still in the main come from privileged backgrounds, often with help from ambitious as well as caring medical students, and do perceive a lack of engagement with other people, it might be useful to do be able to do a 'gap year' after qualifying, for example shadowing a social worker, working in a drugs rehabilitation centre, a home for elderly people, time out to attend conferences and groups led by people with different conditions, social and medical - real life encounters and less role play or tick boxes where student responses are geared to getting marks in the same way as they have been processed all the way through previous education. Once qualified and started in any job it is much more difficult to get time out to reflect and gain wider experience outside a particular field.

BRIEF DESCRIPTION

A person's "background" is their personal history. "Background" is the part of the history of something that you need to know in order to understand a situation. So for a person giving a presentation at a professional conference, the "background" is information about what he studied in school, where he worked.

A person's "background" a person who has the same routine and stories for 20+, and can not comprehend anything outside of the lifestyle they live. They have few short term goals and even fewer long term. Their work ethic is hodge-podge, and the extent of the climax of their day is what they are having for dinner and who won the women's soccer finals. Background people will typically be gossips and are the main consumers of Time and Forge magazine. They are also consumed in there own feelings and only understand their own problems. Main sign of not being a background person is being driven mad by hanging out with background people.

Learning the skill and techniques of problem solving will last you a lifetime.

Depending on the problem, the cost and the level of effort, we have to be true to the level warranted. This is not being pessimistic. Explore things with an honest process, and I believe most things will work out for you. Learning the skill and techniques of problem solving will last you a lifetime. Employers will pay a premium for people who have learned how to solve problems. Entrepreneurs and people following their passion have this in common. They tend to focus on overcoming their obstacles using techniques they have mastered through experience. College will help you test your problem solving skills and techniques.

BRIEF DESCRIPTION

What do the words good person mean to you? There are many different kinds of people around the world. Some are friendly and some are confident. However, it is very hard to look for someone that we can identify as a good person. In my opinion, there are several personalities of people, but two important qualities are being faithful and being kind.

One of the greatest qualities a good person need is being faithful. First and foremost, a trustworthy person is someone we can count on no matter what. For example, a good person is a person with whom you can talk to and trust with your secrets, they won't open their mouth just for fun of it because they respect you. Furthermore, a trustworthy person will never lie to each other. Another point of being a faithful person is responsible. For instance, as a responsible member of the family, they will take care of whenever they go far away will always worry for the family members. Namely, with a friend relationship, a good person will never penny wise pound foolish, keep a promise, Apologize when you've made a mistake.

Being a kind person is another necessary quality of a good person. Firstly, a good person is someone who has a warm heart. For instance, he or she will give love to people around by they share their couple with virtuous and kind actions such as doing charity, donate money to poor people or taking care of old people in care homes. Moreover, becoming a volunteer can help community life is improved by aiding others and helping hands like joining green summer program. Secondly, caring for each other is a way to build a good character too. For example, when your friend or your family are in a bad situation, a good person can give useful advice to them to help them solve the problem. Namely, Help your friends deal with their struggles and support emotion when they are in bad mood.

As medical students still in the main come from privileged backgrounds, often with help from ambitious as well as caring medical parents, and do perceive a lack of engagement with other people, it might be useful to do be able to do a 'gap year' after qualifying, for example shadowing a social worker, working in a drugs rehabilitation centre, a home for elderly people, time out to attend conferences and groups led by people with different conditions, social and medical - real life encounters and less role play or tick boxes where student responses are geared to getting marks in the same way as they have been processed all the way through previous education. Once qualified and started in any job it is much more difficult to get time out to reflect and gain wider experience outside a particular field.

BRIEF DESCRIPTION

My name is Munni devi . I did my education GNM in nursing and now I teach poor children. I do this work very sincerely. I take great pleasure in teaching children. I received good values in my life along with education. Because along with good education, good values also come. I had to work hard to get my education and due to which I was able to complete my education. We can all reach success only by making good efforts. We all know that only a good future can be kept by good education. I feel very proud to teach children and have been doing this work for the last 3 years. I belong to a middle family. I have taught at least 500 children belong to poor society. Along with education, I also teach honesty to the children and always inform the children about the great men in our country. And these great men, who have done great work in our country, also tell the children about them. Because along with the education of the children, it is also necessary to have social and cultural knowledge because it will lead to the full development of children.

He has a good experience of teaching. He is a creative teacher. Students enjoys their lecture. He explain every topic in easy way and solve the students query. Bring positive energy into the classroom every lecture. He has good communication skill. There is always something positive to be found in every lecture. There is a saying, "With great power, comes great responsibility". As a teacher, he is aware and remember the great responsibility that comes with this profession. he has a beautiful smile so don't forget to flash it as much as possible throughout the day. I know that you face battles of your own in your personal life but once you enter that classroom, you should leave all of it behind before you step foot in the door. Always remember that positive energy is contagious and it is up to you to spread it. Don't let other people's negativity bring you down with them. This is the fun part and absolutely important for being an effective teacher! Get to know your students and their interests so that you can find ways to connect with them.

she is dedicated, intellegent and hard worker. she has done nursing from kurkshetra university and has clinical exposure of 3 years. now a days she is working as a nursing tutor in nursing college panipat

As medical students still in the main come from privileged backgrounds, often with help from ambitious as well as caring medical parents, and do perceive a lack of engagement with other people, it might be useful to do be able to do a 'gap year' after qualifying, for example shadowing a social worker, working in a drugs rehabilitation centre, a home for elderly people, time out to attend conferences and groups led by people with different conditions, social and medical - real life encounters and less role play or tick boxes where student responses are geared to getting marks in the same way as they have been processed all the way through previous education. Once qualified and started in any job it is much more difficult to get time out to reflect and gain wider experience outside a particular field.

BRIEF DESCRIPTION

A good person is someone who displays love, joy, peace, kindness, goodness, humility, patience and who is faithful and endures all things. It is someone who displays self control and considers others more important than self. It is someone who is a good friend, a good listener and someone who displays integrity dignity and accountability towards self and towards others. This person is not judgmental and holds no score of records against others but walks in forgiveness and understanding of others. This person does not bad mouth but rather stands up for someone. This is someone who would lay down his life for others not as a doormat, but as a true friend. There are few people today who fall into this category and if you find one, run with that person because that person is positive and someone you can always count on a true friend.

People Problem to be a Good Person

Many people said “It’s so hardly to become a good person, because I am very busy and have many problem, so i have no time to learn what about ‘how to be a good person’, i can’t to do that”. But in fact, we don’t need many act, we just need to do what should we do. Actually, we haven’t realize that we often to do something, like, be proactive in some place, give people the benefit of the doubt, etc

BRIEF DESCRIPTION

नॉलेज - एक शिक्षक होने के नाते अपने विषय से जुड़ी सभी जानकारियां आपको पता होनी चाहिए। इसके अलावा करंट विषयों का ज्ञान होना भी उतना ही जरूरी है, ताकि आप विद्यार्थियों के हर सवाल का जवाब दे सकें।

2 प्रेजेंटेशन - शिक्षक होने के लिए ज्ञान होना जितना जरूरी है, उससे भी ज्यादा जरूरी है उसे विद्यार्थियों तक पहुंचाने का तरीका। हर विद्यार्थी का मानसिक स्तर अलग होता है, ऐसे में प्रेजेंटेशन ऐसा होना चाहिए जो हर किसी की समझ में आसानी से जा जाए।

3 फ्रेंडली नेचर - शिक्षक और विद्यार्थी के बीच अनुशासन जरूरी है, लेकिन समय के साथ साथ अब दोस्ताना व्यवहार की दरकार है। इससे आपको स्टूडेंट्स को समझने और समझाने दोनों में आसानी होगी। इससे अंतर्मुखी विद्यार्थी भी खुल सकेगा और डर दूर होगा।

4 अनुभव और उदाहरण - सिर्फ विषय से जुड़ी जानकारियां ही नहीं बल्कि अपने अनुभव भी विद्यार्थियों से बांटे। इससे आप उनके साथ बेहतर तालमेल बैठा पाएंगे। उदाहरण देकर समझाएंगे, तो बच्चों को लंबे समय तक याद रहेगा।

5 जीवन की समझ - एक बेहतर शिक्षक वही होता है जो अपने विद्यार्थी को जीवन में अच्छे बुरे की पहचान, उज्ज्वल भविष्य के लिए जरूरी बातें, व्यवहार और मानवता की सीख दे। क्योंकि ये उनके जीवन की बुनियादी जरूरतें हैं। इसलिए अगर बच्चा पढ़ाई में अच्छा नहीं कर पा रहा है, तो उसे समझाएं कि वह जीवन में जो बेहतरीन कर सकता है करे, जीवन सिर्फ पढ़ाई तक ही सीमित नहीं है, उससे आगे भी बहुत कुछ है।

BRIEF DESCRIPTION

Sales management is a business discipline which is focused on the practical application of sales techniques and the management of a firm's sales operations. It is an important business function as net sales through the sale of products and services and resulting profit drive most commercial business. These are also typically the goals and performance indicators of sales management.

He teach the Students:-

I remember, back when I was doing my MBA, I was a marketing major, and we had this sales management class. The professor was a curated salesperson with many of experience. The first question he asked the class was this, "Why are you in this class and why do you wish to learn about the topic". Many of us gave him varying answers to the effect of "Sales is a fascinating subject". He was unimpressed, and I'll never forget the reason that he gave for needing to learn sales management

"Sales is the stepping stone to a successful career in marketing."

Over the, I have come to realize that no truer words have been spoken. As the introduction of this guide announces. being an acute sales person is a skill that everybody in any business has to perfect. If you are a sales manager, then you would relate to every word

BRIEF DESCRIPTION

1. Knowledge of the subject matter (विषय का ज्ञान)

You can't teach what you don't know. All teachers need not be experts in their fields, but possessing knowledge is important. Teachers must continue building their understandings of their subjects throughout their careers.

2. Patience (संयम)

No teacher should be expected to have much patience with individuals whose lack of discipline, immaturity, or indolence interrupts the work of other students. Patience with students who are trying to learn, however, is part and parcel of the teaching profession. Impatience with sincere students is an indication of the teacher's own shortcomings.

3. Intellectual curiosity (बौद्धिक जिज्ञासा)

All good teachers are intellectually curious and naturally driven by their interests in keeping abreast of changes in their fields.

4. Confidence (आत्मविश्वास)

Good teachers are confident in their abilities to sense where students are in the learning process and in their students' abilities to learn material that is presented in a logical and graduated fashion.

5. Compassion (सहानुभूति)

Talented teachers are able to work with students with varying levels of maturity and knowledge. A college professor I know once made the following statement about his experience as a teacher: "Each teaching is more challenging for me, because I grow a older and the students stay the same age. The widening age gap forces me to stretch in order to reach them."
