## BRIEF DESCRIPTION

His name is sukhvinder .he is from navipur karnal .he is a sales officer in atul india private pesticide company .he is working in agriculture feild from last 3 years .he has great experence about his feild .He has a good experience of teaching. He is a creative teacher. Students enjoys their lecture. He explain every topic in easy way and solve the students query. Bring positive energy into the classroom every lecture. He has good communication skill. There is always something positive to be found in every lecture. There is a saying, "With great power, comes great responsibility". As a teacher, he is aware and remember the great responsibility that comes with this profession. he has a beautiful smile so don't forget to flash it as much as possible throughout the day. I know that you face battles of your own in your personal life but once you enter that classroom, you should leave all of it behind before you step foot in the door. Always remember that positive energy is contagious and it is up to you to spread it. Don't let other people's negativity bring you down with them.This is the fun part and absolutely important for being an effective teacher! Get to know your students and their interests so that you can find ways to connect with them.

## BRIEF DESCRIPTION

Knowledge is of utmost importance today. Knowledge gives me the ability to survive and tackle different kinds of situations. It also makes me more rational and pragmatic. Thus, I tend to understand things quicker than others and always weigh the pros and cons of a situation. Knowledge comes from learning. Learned people are known to be more efficient, more sincere and more honest than the others. The human faculties are developed by knowledge. The development of human faculties ensures fair play, equal treatment and sound judgment in various different situations. I make sure I have the basic good habits which include respecting my elders, greeting people when I meet them, wishing them well when departing etc. Honor is another aspect of my personality. Honor is a necessary prerequisite for almost everything that we do today. Honor keeps deception at bay and it helps an individual in treating others with utmost respect. Honor keeps my beliefs intact and does not allow the disposition of others in clouding my own judgment. At times, just being honourable is not good enough; one has to maintain his honor by not tarnishing it

B.TECH IN MECHANICAL

## BRIEF DESCRIPTION

Mr. Sumit Kumar s/o Balwinder Saini lives in village shamgarh karnal

2. Have done B.tech in mechanical from MMGI Ramba Karnal

3. HomeMagazine Motivation of Your Employees | The Best Way to Do It

Employees in possession of a college degree have engagement levels that are lower than those seen among employees in possession of a high school diploma or even less than that. This indicates that managers need to improve on their investment in the employees with higher degrees by identifying ways by which they can capitalize on and honor all that they have achieved.

Employees in production and manufacturing are among those business sector employees who are the least engaged. The reason could be that the management culture in these sectors concentrates more on process than on people. So, if some more management culture could be devoted to people with respect to these industries, considerable benefit in employee motivation and engagement can be expected.

The job-hopping tendency is particularly common among millennials (Gen Y). As such, it would be wise if the manager offered this group lots of opportunities to learn and progress. This would contribute to increased retention of the millennial generation.

When compared to other generations, Baby Boomers (those people born in the period between 1946 and 1964) respond better when their managers devote extra effort to showing they care. So to optimize engagement of baby boomer employees, managers may do well to show interest in them by inquiring about their work or other key areas of their life.

DIPLOMA IN AUTOMOBILE

## BRIEF DESCRIPTION

Mr. Parveen Kumar lives in peont karnal.

He has done diploma in automobile Automobile industry is now a booming sector of Indian economy and is already making major contributions towards its Gross Domestic Products (GDP). In the past years the contribution of the automobile industry towards India's GDP has grown steadily at an annual rate of

On an average, the Indian automotive industry has registered a growth rate of 30% over the years. In January 2010, the total number of automotive units sold in the domestic market reached 1114157 vehicles, which is the highest in the past 11 years.

According to a report published by Society of Indian Automobile Manufacturers, Indian automobile sale is expected to reach to 5 million units in 2015 and to achieve the 9 million mark by 2020. The bright prospects of the Indian automobile industry and positive market trends have encouraged many international automobile companies to set up their production and sales units in India. Some of the top international brands who have their manufacturing units in India are General Motors, Ford, Tata Motors, Honda, Hyundai Motors, Nissan, Toyota, Volkswagen and Suzuki.

The substantial availability of talented engineers and low costs offered by India has encouraged many international car manufacturing companies to start business in India. Further, the improved economic condition and increased disposable income of people have also attracted international brands like Toyota, BMW, Mercedes Benz, Audi and the like to introduce their newer models to Indian buyers.

Employment status in Indian Automobile Industry

The strong market trends of the industry have helped in creating new job opportunities for young professionals.

India has always enjoyed distinct advantages in labor intensive industries. The vast population coupled with improved scope for higher education has helped India in becoming a favorite destination for automobile industry. Indian automotive

## BRIEF DESCRIPTION

About my background, I started my primary education from Govt Primary School, kalri jagir. I topped in 5th class. During my schooling I achieved merit positions many classes. In matriculation, I obtained 74% marks in 1997. After that I completed my 4-Year Diploma in Electronics with 3rd position from SJP Polytechnic , Damla(Ynr).

About my graduation, I passed my B.Tech with first division in 2004. Then I finished my Master's of Technology from JMIT, Radaur {Ynr}.

Throughout my studies , I worked on my skills like communication, confidence, commitment etc.

As concern my working experience, I serviced as a Project Engineer for more than 1.5 years in Delhi.

After that, I selected as an Assistant Professor in Engineering institute. I taught successfully near about more than 9 years.

I handled various departments with a caring responsibility as a Head of Department.settled various Engg Labs in this span. The best achievement was that I selected as a member of Board of Governors in my Global College. And next achievement is that since 2015 I have bern teaching volunteering (without salary) for the services of society.

If I discuss the challenges which I have faced , there was no facility of improving communication skills, computer skills in rural areas.

But I worked very hard in my college time to achieve these challenges. Now today I can deliver my knowledge, can share my experience on any big platform. As we know a teacher is always a learner that's why I keep on learning new things from any source. Thanks for reading something about me.

IT/ITES

CURRENT OCCUPATION:  
TEACHING

EXPERIENCE (IN YEARS) : 18

HIGHEST QUALIFICATION:  
B.C.A

## BRIEF DESCRIPTION

Myself DavinderKumar from ward no. 3 indri Karnal. My Father was retired as health Inspector in 2006 and Mother is house wife. I have done B.C.A. from Kurukshetra University, Kurukshetra. I have also done Diploma in Computer Maintenance and Networking from jetking Chandigarh in 2003. I have 16+ years of teaching experience in computer hardware and software. I am married and have three kids, two daughters and one son. My wife is also working as Math teacher from last 13 years on Dev Computers indri. Presently I live in indri.

There are lots of things for you to tell. In my school days I was good in my studies. I had done my secondary education with Art. After completing my schooling I took admission in B.C.A. in Zed Carrier Academy, Karnal. I completed my B.C.A. with first class and went into the market to get a job. But at that time there was a recession in the market and especially for the freshers. So I struggle for a year or more and at last I decided to Start my own academy of computer coaching. The income was not sufficient but I accept that as I have no other option. In the mean time I was trying for some better opportunity and soon I joined One year Diploma in computer Hardware and Networking from jetking Chandigarh. After completion of course there was a lot of offers of job in Ludhiana and Gurugram. But I was still not satisfied with the job. Then I decided to do some more hardwork. Now it was the time to get an opportunity in Teaching. I joined Haryana Engineering College as a Lecture in Computer Science Depatment. I worked there for five years and left the college as an Assistant Professor. The main reason to left the college was I want to come near home as there were a number of colleges opened near Karnal and Kurukshetra at that time. Then I joined IIET, SAMANI, KARNAL as a Assistant Professor. I worked there and soon I was given the responsibility of Head of Department. I serve there for more than two years. Now the time comes when the trend in taking admission in Engineering had changed. People found no interest in taking admission towards engineering. I found myself under pressure

## BRIEF DESCRIPTION

MASTERY IN SOFTWARE DEVELOPMENT

EXCELLENT TRACK RECORD

SOFT SPOKEN

POLITE BEHAVIOUR

EXCELLENT KNOWLEDGE OF COMPUTER. HE LIVES IN KURUKSHETRA AND WORKING AS OWNER IN OWN INSTITUTE FROM LAST FEW YEARS. HE IS A MAN WITH KNOWLEDGE. I am a person who believes that appearance is not everything. In my opinion, the character is what makes a person beautiful. I first met MR ATUL two years ago.

He is a simple person but with high knowledge.

He has charcoal black eyes and a pair of bushy eyebrows to go with them a pointy nose and a small tight mouth. On her left cheek resides a rather large mole which seems to increase its radius every time she screams. She has a very pale complexion and likes to keep things simple and natural.

To add up to all this,he is never ardent to give students a lesson. A monotonous subject and a dreary teacher, a perfect match. From the look on his face, he would rather be sitting down in the staff room sipping a cup of hot coffee than teaching us HTML.

## BRIEF DESCRIPTION

Ramnik Singh is from Karnal.

If talk about his after finishing his graduation he went to Australia .

He stay there about about 7 years.

Worked in several industries and studies as well.

And after four years ago he came back to India.

In 2015 he joined ICA Edu Skills PVT LTD as a P D Trainer .

Now he is working as a centre manager with same organization as his achievement.

After graduation to become center manager he faced many problems like teachers have to deal with a wide range of student needs.

He overcome all problems and grow up.

He is now able to understand all students are unique in having their own background, needs, and learning styles.

Teachers have to be prepared to work with all learning styles in every lesson, requiring more time and creativity.

However, successfully working through this challenge can be an empowering experience for both students and teachers alike.

He Believe in focusing on a good teaching qualities can help teachers overcome their perceptions and find fulfillment in their profession.

## BRIEF DESCRIPTION

I have completed my post Graduation in 2010 and joined the IT company in Gurgaon. I am working as a software engineer in the IT company since 2010. My current Designation is Senior Software Analyst and my role is as a team lead. One thing that got me through the bad times was motivational quotes. My thinking is that they can help you too. That's why I collected a massive list of motivational quotes for students and recent grads. I hope they help you as much as they've helped me. Then, you graduate, and you still find yourself poor and underemployed. It can suck. But eventually, if you keep on fighting through the suckiness, you'll get past the crappy stage and into the prospering phase. I know this because I've made it past that hump. And if I can do it, you can do it. I know because once upon a time I was a college student, and it wasn't exactly fun. You have to juggle working with interning with studying with going to class and attempting to have a social life. Not only that, when you graduate and step into the real world, you won't have a syllabus or an academic calendar that tells you exactly what you can expect for every day of the year. That's a big deal. That fact alone is why you're going to fail a lot at first. Just remember it's a learning experience, and the more you practice, the more you'll succeed.

## BRIEF DESCRIPTION

Mr. Ram Roop is well qualified person. His Achievements are very good. He is a very hard working person. He is the master of computer science. He is always dedicated to his work. He is the head of Hartron computer center. Students learn well knowledge from him because he is a very experienced person in his own field. Every person has to face many problems in their life. Mr. Ram Roop has overcome all obstacles in his life. A computer engineer, also called a software engineer, is responsible for developing, testing and evaluating the software that makes our computers work. They may help in the development of new computer games and business applications, or even in the design of entirely new operating systems. A computer engineer may also be responsible for constructing and managing an organization's computer system and supplying technical support. A computer engineer typically works in an office or laboratory environment as part of a team and enjoys a traditional work schedule. The IT world has become increasingly complex. The complexity is rapidly reaching a point of critical mass, where one single developer can no longer know everything needed to be proficient at his or her job. Because of this, teamwork is more important than ever.

DISTRICT : KARNAL

SKILL :  
IT/ITES

CURRENT OCCUPATION:  
RF ENGINEER NOKIA

EXPERIENCE (IN YEARS) : 4

HIGHEST QUALIFICATION:  
BTECH ECE

## BRIEF DESCRIPTION

AMIT did his b.tech in electronics & communication from RPIIT KARNAL then he started his job in NDRI KARNAL AS TECHNICAL ASSISTANT AFTERWARDS HE JOINED AIRTEL AS NETWORK ENGINEER. Presently he is working as RF ENGINEER IN NOKIA. Being a good listener tops the list. Our success in networking depends on how well we can listen and learn. The faster you and your networking partner learn what you need to know about each other, the faster you'll establish a valuable relationship. The first thing that people see from you is your attitude, how you handle yourself day in and day out. A consistently negative attitude makes people dislike you and drives away referrals. People don't care how much you know until they know how much you care. Helping people shows that you care. One survey respondent said, "People want to network with individuals who have a collaborative attitude." Helping others can be done in a variety of ways, from emailing a helpful article to someone to putting them in touch with a person who can help with a specific challenge. You can offer the help, the thanks and the listening ear, but if you're not sincerely interested in the other person, they'll know it! Those who have developed successful networking skills convey their sincerity at every turn. One respondent stated, "It's all about the authenticity" that someone shows you. We've all seen people who are seemingly good at networking but lack sincerity. Faking it isn't sustainable -- and it doesn't work. One respondent said it best: "It doesn't matter how successful the person is; if I don't trust them, I don't work with them." When you refer someone, you're putting your reputation on the line. You have to be able to trust your referral partner and be trusted in return. Neither you nor anyone else will refer a contact to someone who can't be trusted to handle it well.

## BRIEF DESCRIPTION

Myself Neeraj Kamboj from Vill. Chor Pura, Dist.& Teh. Karnal. My father was a poor farmer and my mother was a housewife. My school education completed in govt. school in the village. There I was a very good and helpful student. I have done my education with very hard work and more problems. I have done graduation 50% and P G D C A 70% from Kurukshetra University, Kurukshetra, M Sc 72% from Punjab University. MBA complete with 70% marks. I have also done Diploma in Computer Software, Hardware and Networking from Shaheed Udham Singh Computer Center Indri in 2003. I have 15+ years of teaching experience in computer Hardware and Software and Account with tally. I am married and I have two children 1 daughter and one son. My wife is a housewife. I have an experience of 7 years at Shaheed Udham Singh center.

Now I am working in Advance Computer Technology in Indri. Now, of days I am teaching there of Computer Software and Hardware and Accounts subjects (Tally). Advanced Computer Technology is society. And I am also its member. We are working there for poor students and make them successfully there working fields.

We have done 500+ students success. I am also working in PMKVY govt. project. And offer good jobs for all students.

So I struggle for a year or more and at last, I decided to start my own academy of computer coaching. The income was not sufficient but I accept that as I have no other option. In the meantime, I was trying for some better opportunity and soon I joined One-year Diploma in Computer Hardware and Networking from Shaheed Udham Singh center indri. After completion, of course, there was a lot of offers of job in Ludhiana and Gurugram. But I was still not satisfied with the job. Then I decided to do some more hard work, and Accounts. Now it was the time to get an opportunity in Teaching. I joined Advanced Computer Technology in Indri.

## BRIEF DESCRIPTION

Teachers have the very important responsibility of shaping the lives of young, impressionable children. With this responsibility comes great pride and joy. Therefore all teachers should strive for what can be considered to be a "good teacher." A good teacher can be defined as someone who always pushes students to want to do their best while at the same time trying to make learning interesting as well as creative. A positive or negative influence from a teacher early on in life can have a great effect on the life of a child. Teachers, especially at the elementary level, must be very creative with their teaching styles. Not every child learns the same way, nor are they interested in the same things. It is difficult to keep the attention of 15-20 children under the age of ten. Classroom setup and design is a good way to get and keep the attention of students. Workstations are a good way to encourage different types of learning. By allowing children a chance to choose which activities they want to participate in, children are taking control of their own education. At the elementary level, children are always learning and sometimes don't even know it. When I was in kindergarten, I can remember playing at the different stations in the classroom. One station was for gardening and we could plant seeds and check them every day to see how much they had grown. Another station in that classroom that sticks out in my mind is the arts and crafts station. There was a large array of crayons, markers, scissors, construction paper and building materials we could use to make pretty decorations to give to our parents for our homes. By choosing which station we wanted to work at, we were becoming much more interested in what we were learning because we were doing what we wanted to do, not what we had to do. By setting high standards for a student, the teacher is encouraging the student to do the same and will eventually

## BRIEF DESCRIPTION

very good communication and IT Skill. He is good person and having good knowledge of IT subject. Moreover, the lecture was interactive. It also helped the students to build a positive attitude and motivated them to achieve high success in life. The lecture was enlightening experience as it helped to rediscover oneself as a human being, as a student, as a fresher who was looking for his/her dream job. The articulation tips provided by the mentor were helpful to improve the personality.

This Lecture was very good to learn global accent. He narrated his journey with the few case studies, which has been found interesting by the students to incorporate in their professional life. Finally he gave some tips to become an successful Entrepreneur and the various opportunities that are available to use in effective way. Public speaking is how you can share your ideas with a large number of people, stand out from the corporate crowd, and get visibility in your field.

Unfortunately, if you're public speaking skills are not up to par, it's likely that no one will be focused enough on your presentation to really receive your message.

## BRIEF DESCRIPTION

My name is Priyanka Devi. I am from village Khera Teh- Indi Distt-Karnal(Haryana). I have done my graduation from Kurukshetra University Kurukshetra. I have done a one year post graduate diploma in computer application(PDCA) from Kurukshetra University Kurukshetra, then I have done MCA(master in computer application) from same university. I have 6+year experience of teaching in Gurukul Professional & Technical Institute Indri(karnal). I also have 1 year experience of teaching from Hartron Computer Center Indri(karnal). At that time I completed my graduation there was a craze for computer and a lot of scope there so I chose this field. I am married and also have a son. My husband is also doing job as an engineer in Bharti Airtel(guruaon). Presently I live in Indri. There are lots of things for you to tell in my school days. I was good in my studies because I live in a small village where life is very hard, children growing up over there especially girls. I face many challenges to have access to education but my mother always supported my studies. One of the hardest challenges I faced was my father's death. I always remember my mother's tears and how she suffered. These feelings of loneliness and the suffering of my mother made me stronger. I developed an eagerness to study and want to be successful in my life. After my secondary school my mother continued supporting and encouraging me. Then she sent me from our village to a city to complete my graduation. I am an education activist because of the challenges I have faced for my education. Now I am spreading awareness of education among my community and my students at my coaching center. I am trying to inspire young people to advocate for this in many ways via social media and conducting awareness lectures. I am very happy to serve such a challenging responsibility. So students I want to share you all this information because life is not as easy as it seems to be. When you face the challenges then you will realize that now true life begins. So students never give up in life is the only optimistic approach which you should follow.

## BRIEF DESCRIPTION

Guest speakers have become an important part of the educational experience for students. They expose students to real-world life experiences from the position of someone who has been there. Students get to see the insight and perspective of the guest speaker's particular field.

One important benefit that is derived from having a guest speaker is the enhancement of the students' educational experience. They essentially get a glimpse into the everyday life of the speaker, which they can't get anywhere else. Another added benefit is the link that students get to make between what they learn in their textbooks and what they learn from the guest speaker. Research indicates that it helps students build important connections between what they are learning and the real world.

Guest speakers offer something that you can't offer your students; a different perspective. Have you ever been teaching a subject, and then all of a sudden you realize that the students just don't understand what you are trying to say? A guest speaker supports a topic that you may know little about and can offer your students a different point of view, one that they may better understand. It gives them the opportunity to learn something new, while it gives you a break. You may find that you end up learning something new in the process.

A professional, experienced guest speaker can really make an impact on your students. They may be able to drive home a concept that you just couldn't nail down. For example, if you were using classroom management to teach your students about texting and driving and the ramifications of it, but you found that they really didn't grasp what you were trying to say, you could get a parent who has lost a child to a texting driver. Hearing a story from a parent who has lost a child could really make an impact on your classroom.

There are several ways that you can choose a potential guest speaker for your classroom. The quickest and easiest way is through word of mouth. Ask your colleagues or send a department-wide e-

## BRIEF DESCRIPTION

She is from Karnal.

She is very hard worker.

She faced with mandated changes in tools, curriculum, and best practices as administrators race to adopt the latest and greatest trends. However, these constant changes can lead to inconsistency and frustration, making teachers' lives more difficult. Adequate training isn't always made available, and many teachers are left to fend for themselves to figure out how to implement whatever has been adopted. But she overcome all these types of problems.

She is also a good motivational speaker.

She is able to understand difference between low lerner as well as fast.

She is a good lesson planer .

Before entering in class room she prepare her lesson perfectly with real world examples that may actually help students achieve more.

If we talk about essential qualities she is self aware, knowledgeable, analyzes students learning and take risk is teaching.

She think of herself as gardeners, potters shaping clay, mechanics working on engines, business managers, or workshop artists, supervising other artists in their growth.

## BRIEF DESCRIPTION

The job of an IT executive is to oversee the information technology needs of an organization including supervising subordinates, coordinating software implementation and upgrades, determining IT budget and equipment needs, and ensuring systems security. The responsibilities of IT execs vary based on the company for which they work. However, several core duties overlap. Candidates should expect to perform the following:

### Oversee Tech Departments

IT execs monitor the activities and production of tech departments. Managers update them on progress and concerns. IT executives deal with this information and share it with other senior leaders to create a vivid picture of technical operations and how they fit in with overall procedures.

### Strategize Tech Improvements

When top leaders decide where they'd like the company to focus efforts, they turn to IT execs to provide information on how to turn visions into reality. Drawing on their technical knowledge, IT executives communicate what would be involved to implement the idea, such as purchasing software or hiring additional tech staff.

### Manage the IT Budget

Organizations usually do not have unlimited funds. IT execs must work within financial limits to get the most output from the equipment, programs, and manpower they have. They also must figure out what new technology would be most beneficial and consider the cost to obtain it. This process involves making tough decisions, such as whether to postpone scheduled computer model upgrades in order to revamp the security system instead.

CURRENT OCCUPATION:  
COMPUTER TEACHER

EXPERIENCE (IN YEARS) : 4

HIGHEST QUALIFICATION:  
B.TECH

## BRIEF DESCRIPTION

There are number of qualities endorsed by educationists for teacher to be a real teacher. These qualities help a teacher to perform efficiently, but the ultimate thing for a teacher is inspiring his/her students. I am interested to know what few qualities would you suggest teacher should display to inspire his/her students.

Think the teachers can perform the following:

Discover students' potentials & share with them what are their possible goals to pursue - finding some people can be inspired from young by their teachers.

Provide & promote a conducive learning environment for students at least in school - this can inspire students so that when they grow up, they will setup similar environment for their continuous learning.

Constantly evaluate & balance between spoon feeding vs independent assignment, project or research for students - balance between fishing for them & teaching them how to fish can inspire them to pursue knowledge further.

inculcate the right attitude & behavior within students e.g. kindness, integrity, diligence etc. - students learn & practice these from young can greatly impact their future undertakings.

Leading by example - students can correlate what the teachers teach & what they actually do.

1) Accept your past. If you don't make peace with your past, it will never leave you and it will create your future. Successful people know the only good time to look at the past is to see how far you've come.

2) Accept the uncertainty of the future, and don't place unnecessary expectations upon yourself.

## BRIEF DESCRIPTION

Mr. Vikram Singh is well qualified person.

His Achievements are very good.

he is very hard working person.

he is the master of computer science.

he is always dedicated there work.he is the head of Hartron

computer center.Students are learn well knowledge from him

Because he is very experienced person in there own field.

every person has to faced many problems in there life.

Mr. Vikram Singh has Overcome all obstacles in his life.

A computer engineer, also called a software engineer,

is responsible for developing, testing and evaluating

the software that make our computers work. They may help in the development of new computer games and business applications, or even in the design of entirely new operating systems. A computer engineer may also be responsible for constructing and

managing an organization's computer system and supplying

technical support. A computer engineer typically works

in an office or laboratory environment as part of a team

and enjoys a traditional work schedule.The IT world has gotten

increasingly complex. The complexity is rapidly reaching a

point of critical mass, where one single developer can no

`longer know everything needed to be proficient at his or her job. Because of this.

M.TECH CSE

## BRIEF DESCRIPTION

SHAMA CHOUDHRY DID HER MTECH IN COMPUTER SCIENCE AND ENGINEERING FROM MMU MULLANA AMBALA SHE STARTED HER CAREER TRAINER IN ITI ROORKI SAHARANPUR AFTER THAT SHE JOINED DOON VALLEY COLLEGE AS LECTURER CSE .Being a good listener tops the list. Our success in networking depends on how well we can listen and learn. The faster you and your networking partner learn what you need to know about each other, the faster you'll establish a valuable relationship. The first thing that people see from you is your attitude, how you handle yourself day in and day out. A consistently negative attitude makes people dislike you and drives away referrals. People don't care how much you know until they know how much you care. Helping people shows that you care. One survey respondent said, "People want to network with individuals who have a collaborative attitude." Helping others can be done in a variety of ways, from emailing a helpful article to someone to putting them in touch with a person who can help with a specific challenge. ou can offer the help, the thanks and the listening ear, but if you're not sincerely interested in the other person, they'll know it! Those who have developed successful networking skills convey their sincerity at every turn. One respondent stated, "It's all about the authenticity" that someone shows you. We've all seen people who are seemingly good at networking but lack sincerity. Faking it isn't sustainable -- and it doesn't work. One respondent said it best: "It doesn't matter how successful the person is; if I don't trust them, I don't work with them." When you refer someone, you're putting your reputation on the line. You have to be able to trust your referral partner and be trusted in return. Neither you nor anyone else will refer a contact to someone who can't be trusted to handle it well.

## BRIEF DESCRIPTION

very good communication and IT Skill. He is good person and having good knowledge of IT subject. Moreover, the lecture was interactive. It also helped the students to build a positive attitude and motivated them to achieve high success in life. The lecture was enlightening experience as it helped to rediscover oneself as a human being, as a student, as a fresher who was looking for his/her dream job. The articulation tips provided by the mentor were helpful to improve the personality.

This Lecture was very good to learn global accent. He narrated his journey with the few case studies, which has been found interesting by the students to incorporate in their professional life. Finally he gave some tips to become an successful Entrepreneur and the various opportunities that are available to use in effective way. Public speaking is how you can share your ideas with a large number of people, stand out from the corporate crowd, and get visibility in your field.

Unfortunately, if you're public speaking skills are not up to par, it's likely that no one will be focused enough on your presentation to really receive your message.

DISTRICT : KARNAL

SKILL :  
IT/ITES

CURRENT OCCUPATION:  
HEAD OF GURUKUL INSTITUTE

EXPERIENCE (IN YEARS) : 0

HIGHEST QUALIFICATION:  
MCA

## BRIEF DESCRIPTION

My name is Priyanka Devi. I am from village Khera Teh- Indi Distt-Karnal(Haryana). I have done my graduation from Kurukshetra University Kurukshetra. I have done a one year post graduate diploma in computer application(PDCA) from Kurukshetra University Kurukshetra, then I have done MCA(master in computer application) from same university. I have 6+year experience of teaching in Gurukul Professional & Technical Institute Indri(karnal). I also have 1 year experience of teaching from Hartron Computer Center Indri(karnal). At that time I completed my graduation there was a craze for computer and a lot of scope there so I chose this field. I am married and also have a son. My husband is also doing job as an engineer in Bharti Airtel(guruaon). Presently I live in Indri. There are lots of things for you to tell in my school days. I was good in my studies because I live in a small village where life is very hard, children growing up over there especially girls. I face many challenges to have access to education but my mother always supported my studies. One of the hardest challenges I faced was my father's death. I always remember my mother's tears and how she suffered. These feelings of loneliness and the suffering of my mother made me stronger. I developed an eagerness to study and want to be successful in my life. After my secondary school my mother continued supporting and encouraging me. Then she sent me from our village to a city to complete my graduation. I am an education activist because of the challenges I have faced for my education. Now I am spreading awareness of education among my community and my students at my coaching center. I am trying to inspire young people to advocate for this in many ways via social media and conducting awareness lectures. I am very happy to serve such a challenging responsibility. So students I want to share you all this information because life is not as easy as it seems to be. When you face the challenges then you will realize that now true life begins. So students never give up in life is the only optimistic approach which you should follow.

## BRIEF DESCRIPTION

She is Post graduate. She belongs to middle class family. As a middle class she faced many problem in her student life, and now her aim is to motivate those students who are faced problems in their student life. because she better know how to overcome these types of problems. Being a teacher she has self aware, knowledgeable.

Teaching can be quite satisfying for people who do it well. She know this because she is a teacher, too. Although she do not think she is always the best teacher, do she know that the majority of her students love her, and she guess this is partly why good things happen in her classroom.

She has expert communication skills

superior listening skills

deep knowledge and passion for their subject matter

the ability to build caring relationships with students

friendliness and approachability

excellent preparation and organization skills

strong work ethic

community-building skills

high expectations for all

She believe if a teacher's communication skills (verbal, nonverbal, and visual, which involve speaking, writing, imagery, body language, and the organization of ideas into understandable structures) are good, they can convey knowledge with better skill and results.

## BRIEF DESCRIPTION

Mrss. Surinder kumar is well qualified and experianced person. he is honest. he has five year experiance as a vocational Trainer. He is currently working Under Bhupendra Society as vocational trainer. He is honest. He is very kind of person.

Experts in the field share their knowledge, their career journeys and provide crucial advice to prepare students for life after university.

Hearing new voices exposes our students to different points of view, and enhances their learning experience by providing real world examples to bring the theory to life. It keeps our lectures exciting and relevant and gives industry the opportunity to influence the next generation of IT professionals.

"Today's seminar was very good. It was engaging and humorous and gave a lot of insight into the day-to-day work involved for security teams at EY. It was very helpful getting practical examples of the work they complete so it's easier to understand the possible work we could be completing one day."

I really appreciated the presentation given by Matthew as he gave an insight into a career path which I didn't know much about. In addition to this, he also made his presentation very simple and easy to understand which kept me engaged throughout the seminar."

IT/ITES

CURRENT OCCUPATION:  
WORKING WITH ARPANA TRUST  
AS IT MANAGER

EXPERIENCE (IN YEARS) : 0

HIGHEST QUALIFICATION:  
B.SC. IT

## BRIEF DESCRIPTION

Sandeep sir basically from karnal and completed his study from yamunagar . now he is currently working with Arpana Trust as IT Manager . He has total 13 years experience in IT Sector during college time he was a good student Challenges - There is the stress of making a good adjustment because students believe their future depends upon their doing well. Did they make the right choice? How can they be sure? Should they change courses, direction, major? Putting choices into a longer-term perspective is useful. There are many people on campus that can assist them in making decisions: professors, peers, and College staff. Students may be ambivalent about dependence and independence. Some will openly ask for parent support and others won't tell parents important details. Parents need to ask their adolescent how they are doing without prying too much - while also being accessible and open.

Academics- The work is hard and some students may experience their first low grades. Most students have done well in high school. Some high school courses are not as demanding as college. A student has to learn a particular professor's expectations and style of grading.

he is very hard working person.

he is the master of computer science.

he is always dedicated there work.he is the head of Hartron

computer center.Students are learn well knowledge from him

Beacuse he is very experienced person in there own field.

every person has to faced many problems in there life.

Mr. AmanDeep Singh has Overcome all obstacles in his life.

A computer engineer, also called a software engineer,

is responsible for developing, testing and evaluating

the software that make our computers work. They may help in the development of new computer games and business applications, or even in the design of entirely new operating systems. A computer engineer may also be responsible for constructing and

managing an organization's computer system and supplying

technical support. A computer engineer typically works

in an office or laboratory environment as part of a team

and enjoys a traditional work schedule.The IT world has gotten

increasingly complex. The complexity is rapidly reaching a

point of critical mass, where one single developer can no

`longer know everything needed to be proficient at his or her job. Because of this.

## BRIEF DESCRIPTION

My self is Raj Kumar. About my background, I started my primary education from Govt Primary School, bibipur jattan. During my schooling, I achieved merit positions in many classes. In matriculation, I obtained 64% marks in 2000. then I completed XII from DAV karnal with 59%. About my graduation, I passed my B.Tech with first division in 2007. Then I finished my Master's of Technology from Doon Valley karnal.

Throughout my studies, I worked on my skills like communication, confidence, commitment etc.

As concern my working experience, I serviced as a Trainer for more than 9 years in karnal.

If I discuss the challenges which I have faced , there was no facility of improving communication skills, computer skills in rural areas.

But I worked very hard in my college time to achieve these challenges. Now today I can deliver my knowledge, can share my experience on any big platform. As we know a teacher is always a learner that's why I keep on learning new things from any source. Thanks for reading something about me.Thanks,

Yours sincerely,

Raj Kumar

## BRIEF DESCRIPTION

very good communication and IT Skill. He is good person and having good knowledge of IT subject. Moreover, the lecture was interactive. It also helped the students to build a positive attitude and motivated them to achieve high success in life. The lecture was enlightening experience as it helped to rediscover oneself as a human being, as a student, as a fresher who was looking for his/her dream job. The articulation tips provided by the mentor were helpful to improve the personality.

This Lecture was very good to learn global accent. He narrated his journey with the few case studies, which has been found interesting by the students to incorporate in their professional life. Finally he gave some tips to become an successful Entrepreneur and the various opportunities that are available to use in effective way. Public speaking is how you can share your ideas with a large number of people, stand out from the corporate crowd, and get visibility in your field.

Unfortunately, if you're public speaking skills are not up to par, it's likely that no one will be focused enough on your presentation to really receive your message.

## BRIEF DESCRIPTION

Myself DavinderKumar from ward no. 3 indri Karnal. My Father was retired as health Inspector in 2006 and Mother is house wife. I have done B.C.A. from Kurukshetra University, Kurukshetra. I have also done Diploma in Computer Maintenance and Networking from jetking Chandigarh in 2003. I have 16+ years of teaching experience in computer hardware and software. I am married and have three kids, two daughters and one son. My wife is also working as Math teacher from last 13 years on Dev Computers indri. Presently I live in indri.

There are lots of things for you to tell. In my school days I was good in my studies. I had done my secondary education with Art. After completing my schooling I took admission in B.C.A. in Zed Carrier Academy, Karnal. I completed my B.C.A. with first class and went into the market to get a job. But at that time there was a recession in the market and especially for the freshers. So I struggle for a year or more and at last I decided to Start my own academy of computer coaching. The income was not sufficient but I accept that as I have no other option. In the mean time I was trying for some better opportunity and soon I joined One year Diploma in computer Hardware and Networking from jetking Chandigarh. After completion of course there was a lot of offers of job in Ludhiana and Gurugram. But I was still not satisfied with the job. Then I decided to do some more hardwork. Now it was the time to get an opportunity in Teaching. I joined Haryana Engineering College as a Lecture in Computer Science Depatment. I worked there for five years and left the college as an Assistant Professor. The main reason to left the college was I want to come near home as there were a number of colleges opened near Karnal and Kurukshetra at that time. Then I joined IIET, SAMANI, KARNAL as a Assistant Professor. I worked there and soon I was given the responsibility of Head of Department. I serve there for more than two years. Now the time comes when the trend in taking admission in Engineering had changed. People found no interest in taking admission towards engineering. I found myself under pressure

## BRIEF DESCRIPTION

She is from Karnal. She is post graduate. She has completed M. Phil. She is a good in nature. She takes students and resolve them with real world examples. For being a teacher It can be incredibly frustrating when parents don't support their efforts to educate children. Ideally, a partnership exists between school and home, with both working in tandem to provide the best learning experience for students. However, when parents don't follow through with their responsibilities, it can often have a negative impact on the class. Ensuring that students eat well, get enough sleep, study, complete their homework, and are prepared for the school day are just a few of the basic of the things that parents are expected to do for their children. It is the big challenge for her. She overcome these problems by rally and PTM.

As a Teacher she has essential qualities like Excellent Communication Skills

Superior Listening Skills

Deep Knowledge of and Passion for the Subject Matter

The Ability to Develop Strong Relationships With Students

Friendliness and Approachability

Preparation and Organization Skills

The Ability to Build Community

## BRIEF DESCRIPTION

Madam Reena Sharma is basically from Karnal and her husband Mr. Rajnish Sharma working with India Bulls P. Ltd. in Karnal. She has completed her basic study from Karnal and BCA from Maharishi Dayanand University Rohtak. Now currently she is working in VP Intl School Karnal.

**Background-** A career as a computer teacher offers many different opportunities. A computer teacher might cover basic keyboarding and computer functions for teenagers in public school or adults who are updating their work skills in a night class, or they may teach more complicated elements of computer science to college students. The duties of a computer teacher typically include creating lesson plans, evaluating student performance, maintaining classroom records, meeting with parents, teachers, and other professionals, updating curriculum, and participating in campus events. Additional research, supervisory, or organizational duties may also be required depending upon the expectation of the employing school.

**Challenges -** The challenges college students face these days are enormous. There are also issues in the education system. Challenges and struggles are part of everyone's lives. We face many challenges in our day to day journey. The challenges we face throughout our lives create the person we are. Through our past experiences, we have learned to deal with challenges. However, the case is not the same when we talk about youngsters. Some issues college students face are very serious and need help to handle them. Moreover, the education system which these youngsters go through is nowhere near to the situation they are going to face in real life. Problems of students in school are way too stressful and need help from both teachers and parents.

## BRIEF DESCRIPTION

I Devender Kumar from ward no. 3 indri Karnal. My Father was retired as a health Inspector in 2006 and Mother is a house wife. I have done B.C.A. from Kurukshetra University, Kurukshetra. I have also done Diploma in Computer Maintenance and Networking from jetking Chandigarh in 2003. I have 16+ years of teaching experience in computer hardware and software. I am married and have three kids, two daughters, and one son. My wife is also working as a Math teacher from last 13 years on Dev Computers indri. Presently I live in indri.

There are lots of things for you to tell. In my school days, I was good in my studies. I had done my secondary education with Art. After completing my schooling I took admission in B.C.A. in Zed Carrier Academy, Karnal. I completed my B.C.A. with first-class and went into the market to get a job. But at that time there was a recession in the market and especially for the freshers. So I struggle for a year or more and at last, I decided to start my own academy of computer coaching. The income was not sufficient but I accept that as I have no other option. In the mean time, I was trying for some better opportunity and soon I joined One-year Diploma in Computer Hardware and Networking from jetking Chandigarh. After completion of course there was a lot of offers of job in Ludhiana and Gurugram. But I was still not satisfied with the job. Then I decided to do some more hard work. Now it was the time to get an opportunity in Teaching. I joined Haryana Engineering College as a Lecturer in the Computer Science Department. I worked there for five years and left college as an Assistant Professor. The main reason to left college was I want to come near home as there were a number of colleges opened near Karnal and Kurukshetra at that time. Then I joined IIET, SAMANI, KARNAL as an Assistant Professor. I worked there and soon I was given the responsibility of the Head of Department. I serve there for more than two years. Now the time comes when the trend in taking admission in Engineering had changed. People found no interest in taking admission to engineer. I found myself under pressure in bringing

## BRIEF DESCRIPTION

very good communication and IT Skill. He is good person and having good knowledge of IT subject. Moreover, the lecture was interactive. It also helped the students to build a positive attitude and motivated them to achieve high success in life. The lecture was enlightening experience as it helped to rediscover oneself as a human being, as a student, as a fresher who was looking for his/her dream job. The articulation tips provided by the mentor were helpful to improve the personality.

This Lecture was very good to learn global accent. He narrated his journey with the few case studies, which has been found interesting by the students to incorporate in their professional life. Finally he gave some tips to become an successful Entrepreneur and the various opportunities that are available to use in effective way. Public speaking is how you can share your ideas with a large number of people, stand out from the corporate crowd, and get visibility in your field.

Unfortunately, if you're public speaking skills are not up to par, it's likely that no one will be focused enough on your presentation to really receive your message.

## BRIEF DESCRIPTION

My name is Priyanka Devi.I am from Indrii Distt-Karnal(Haryana).I have done my graduation from Kurukshetra University Kurukshetra.I have done a one year post graduate diploma in computer application(PDCA) from Kurukshetra University Kurukshetra,then i have done MCA(master in computer application)from same university.I have 6+year experience of teaching in Gurukul Professional & Technical Institute Indri(karnal).I also have 1 year experience of teaching from Hartron Computer Center Indri(karnal).At that time i complete my graduation there was a craze for computer and a lot of scope there so i choose this field . I am married and also have a son . My husband is also doing job as an engineer in Bharti Airtel(guruaon).Presently i live in indri .There are lots of things for you to tell in my school days. I was good in my studies because i live in a small village where life is very hard ,childern growing up over there espesially girls .I face many challenges to have access to education but my mother always sported my studies. One of the hardest challenges i fases was my father death. I always rememberd my mother's tears and how she suffered.These felling of loneliness and the suffering of my mother made me stronger. I developed an eagerness to study and want to successful in my life. After my secondary school my mother continued supporting and encouraging me . Then she send me from our village to a city to complete my graduation . I am an education activist because of the challenges i have faced for my education. Now i am spreading awareness of education among my community and my students at my coaching center . I am trying to inspire young people to advocate for this in many ways via social media and conducting awereness lectures.I am very happy to serve such a challenging responsibility . So students i want to share you all this information because life is not as eassy as it seem sto be.When you face the challenges than you will relise that now true life begins. So students never give up in life is the only optimistic approach which you should follow.

Thanks,

## BRIEF DESCRIPTION

She is MCA . She struggled hard in her life. many times she failed to achieve her goal. But she find out the root cause of failure and achieve at success in her life.

She has faced a problem as Balancing a Wide Range of Student Needs

No matter what type of school you're talking about, she have to deal with a wide range of student needs. While many schools are able to select their students based on an application and assessment of the best fit for the school and community. As a teacher she faced problem with students who distract the rest of the classroom and add a significant challenge. But she overcome all these types of challenges with her qualities and teaching technique.

She has essential qualities like Passion for teaching

Love for children

Love their subjects

Understand the meaning of school

Willingness to change

Organization skills

Willingness to always improve

Enough courage to face hard days

Ability to collaborate with students

with her capabilities she is able to motivate students for higher study and able to convince students to overcome their fear about study.

As the teacher perfects in class, they should also have positive impact in the school.

DISTRICT : KARNAL

SKILL :  
IT/ITES

CURRENT OCCUPATION:  
EXCEL NET COMPUTERS KARNAL

EXPERIENCE (IN YEARS) : 0

HIGHEST QUALIFICATION:  
B.TECH.

## BRIEF DESCRIPTION

Mr. Satpal is basically from Karnal. and currently working with Excel net Computers and completed his study from karnal

Background- To teach in a public secondary school, a bachelor's degree in computer science is usually required. A semester of student teaching is also needed and is usually completed within the bachelor's degree program. A master's degree is typically the minimum educational requirement to teach at a college or university. Because requirements vary, contact the Board of Education in the state in which you wish to teach. A computer teacher is often expected to solve minor technical problems that happen within their classrooms, so computer troubleshooting experience is important. No matter the topic, all teachers should be enthusiastic about the subject they are instructing and exhibit patience when working with students who don't immediately understand the concepts being presented. Professionalism and good communication skills are also important as a computer teacher must interact with parents, administrators, and other teachers on a daily basis.

## BRIEF DESCRIPTION

our Next guest lecturer name is Amarjeet Kaur . Her father Name is Santokh Singh, and he is an Army man. Currently he worked as a farmer. Her Mother name is manjeet Kaur. she is a housewife. Eight members in her family include 4 brothers and grandmother. Her Highest qualification is BCA and other some diplomes. She has 10yrs experience in computer teaching Beacuse She is very experienced person in there own field.

every person has to faced many problems in there life.

Miss Amarjeet Kaur has Overcome all obstacles in his life. There is a built-in way to handle this challenge that all teachers use. It's called differentiation—meaning to put as many ways of learning into a lesson as you can. So when I teach ionic compounds, I have the kids take notes, read a few paragraphs, use buttons to simulate how electrons move, use a computer simulation if I can get access to the computers, and practice it in pairs and by themselves. I put four or five different learning styles into one lesson so that the student who learns best by reading isn't left out. Neither is the student who learns best by moving around.

**taking Blood Samples:** For Assistants working in hospitals, taking and delivering blood samples is a regular responsibility.

**Mobility Assistance:** If a patient has trouble with mobility, Health Care Assistants help them to the toilet and oversee safe transitions from one place to the next.

**Replacing Linens:** Health Care Assistants are responsible for ensuring the comfort of patients, meaning that linens are replaced by Assistants daily.

**Washing Patients:** Assistants assist patients who are unable to shower on their own.

**Equipment Sterilisation:** All equipment used in medical facilities must be sterilised and properly stored, and this task falls on the Health Care Assistant.

**Checking Vitals:** A large part of a Health Care Assistant's day consists of monitoring and recording vitals.

**Communicating with Superiors:** To ensure proper care, Health Care Assistants communicate with superiors to address changes in patient health.

**Lab Processing:** If a medical professional orders labs, Health Care Assistants see that all labs are processed and that the professional is notified of the results.

## BRIEF DESCRIPTION

She has been very hard working in her life. Til the time I know her she has been an honest person towards the organisations for which she has worked. She has worked as a staff nurse in private hospital where she was very punctual and disciplined. After that she worked for our organization as a vocational teacher where she was always appreciated for her good deeds. She has a happy family and no personal problems as per best of my knowledge. She tries to give her best in every field where she works. She is now again working as a staff nurse in private hospital and always ready for any kind of support for our organization and whenever I call her for guest lecture or any kind of favour she always stands besides our organization. She is nowadays working happily in radhakishana hospital in kurukshetra from where she is earning her bread & butter. Personally she has been a good human being for her colleagues. She has a very helpful nature and she cares for everyone but sometimes she is too emotional and that's her weakness because people take advantage of her by making her emotional fool. I have met only a few hardworking ladies like her in my lifetime.

Community-building skills high expectations for all each of these characteristics is described fully below. Although great teachers may also possess a number of other wonderful qualities (like a sense of humour, personality, flexibility, kindness, leadership, classroom management a calm, experience and the ability to multitasking) these are the qualities the best teachers universally possess.

She assessing, priority setting critical thinking, multitasking and good communication.

She is knowledgeable and able to interact with all levels of care.

Thanks

## BRIEF DESCRIPTION

**Taking Blood Samples:** For Assistants working in hospitals, taking and delivering blood samples is a regular responsibility.

**Mobility Assistance:** If a patient has trouble with mobility, Health Care Assistants help them to the toilet and oversee safe transitions from one place to the next.

**Replacing Linens:** Health Care Assistants are responsible for ensuring the comfort of patients, meaning that linens are replaced by Assistants daily.

**Washing Patients:** Assistants assist patients who are unable to shower on their own.

**Equipment Sterilisation:** All equipment used in medical facilities must be sterilised and properly stored, and this task falls on the Health Care Assistant.

**Checking Vitals:** A large part of a Health Care Assistant's day consists of monitoring and recording vitals.

**Communicating with Superiors:** To ensure proper care, Health Care Assistants communicate with superiors to address changes in patient health.

**Lab Processing:** If a medical professional orders labs, Health Care Assistants see that all labs are processed and that the professional is notified of the results.

**Food Assistance:** A Health Care Assistant must assist patients who are unable to feed themselves.

**Patient Monitoring:** Health Care Assistants spend the most time with patients, meaning that they are continually monitoring and recording changes in patient health.

## BRIEF DESCRIPTION

She has been very hard working in her life. Til the time I know her she has been an honest person towards the organisations for which she has worked. She has worked as a staff nurse in private hospital where she was very punctual and disciplined. She has a happy family and no personal problems as per best of my knowledge. She tries to give her best in every field where she works. She is now again working as a staff nurse in private hospital and always ready for any kind of support for our organization and whenever I call her for guest lecture or any kind of favour she always stands besides our organization. She is nowadays working happily in jeevan jyoti

hospital in kaithal from where she is earning her bread & butter. Personally she has been a good human being for her colleagues. She has a very helpful nature and she cares for everyone but sometimes she is too emotional and that's her weakness because people take advantage of her by making her emotional fool. I have never met such a disciplined and punctual lady like her in my life.

## BRIEF DESCRIPTION

Sheela has done g.n.m from Civil hospital, karnal. She is doing job as a staff nurse in hospital. She is very hard working. She is very punctual. She encourage students for hard work. She has a good experience of teaching. She is a creative teacher. Students enjoys their lecture. She explain every topic in easy way and solve the students query. Bring positive energy into the classroom every lecture. She has good communication skill. There is always something positive to be found in every lecture. There is a saying, "With great power, comes great responsibility". As a teacher, she is aware and remember the great responsibility that comes with this profession. She has a beautiful smile so don't forget to flash it as much as possible throughout the day. I know that you face battles of your own in your personal life but once you enter that classroom, you should leave all of it behind before you step foot in the door. Always remember that positive energy is contagious and it is up to you to spread it. Don't let other people's negativity bring you down with them. This is the fun part and absolutely important for being an effective teacher! Get to know your students and their interests so that you can find ways to connect with them.

BSC NURSING

## BRIEF DESCRIPTION

She has been very hard working in her life. Til the time I know her she has been an honest person towards the organisations for which she has worked. She has worked as a staff nurse in private hospital where she was very punctual and disciplined. She has a happy family and no personal problems as per best of my knowledge. She tries to give her best in every field where she works. She is now again working as a staff nurse in private hospital and always ready for any kind of support for our organization and whenever I call her for guest lecture or any kind of favour she always stands besides our organization. She is nowadays working happily as a home tutor for nursing students from where she is earning her bread & butter. Personally she has been a good human being for her colleagues. She has a very helpful nature and she cares for everyone but sometimes she is too emotional and that's her weakness because people take advantage of her by making her emotional fool. She has been an idol lady for every women .

## BRIEF DESCRIPTION

She has a good experience of teaching. She is a creative teacher. Students enjoys their lecture. She explain every topic in easy way and solve the students query. Bring positive energy into the classroom every lecture. She has good communication skill. There is always something positive to be found in every lecture. There is a saying, "With great power, comes great responsibility". As a teacher, She is aware and remember the great responsibility that comes with this profession. She has a beautiful smile so don't forget to flash it as much as possible throughout the day. I know that you face battles of your own in your personal life but once you enter that classroom, you should leave all of it behind before you step foot in the door. Always remember that positive energy is contagious and it is up to you to spread it. Don't let other people's negativity bring you down with them. This is the fun part and absolutely important for being an effective teacher! Get to know your students and their interests so that you can find ways to connect with them.

## BRIEF DESCRIPTION

very good communication and Retail Skill. He is good person and having good knowledge of Retail subject. Moreover, the lecture was interactive. It also helped the students to build a positive attitude and motivated them to achieve high success in life. The lecture was enlightening experience as it helped to rediscover oneself as a human being, as a student, as a fresher who was looking for his/her dream job. The articulation tips provided by the mentor were helpful to improve the personality.

This Lecture was very good to learn global accent. He narrated his journey with the few case studies, which has been found interesting by the students to incorporate in their professional life. Finally he gave some tips to become an successful Entrepreneur and the various opportunities that are available to use in effective way. Public speaking is how you can share your ideas with a large number of people, stand out from the corporate crowd, and get visibility in your field.

Unfortunately, if you're public speaking skills are not up to par, it's likely that no one will be focused enough on your presentation to really receive your message.

## BRIEF DESCRIPTION

We are searching for a new Assistant Manager to join our team who is interested in helping to hire and train other team members. You will also assist in making sure the team adheres to company policies, resolving customer complaints, leading the team, and organizing the team schedule.

To be a great fit for this role you should have a consistent work history and previous experience as a senior staff member or as an Assistant Manager. A passion for customer service and team mentoring is also a plus.

Assistant Manager Responsibilities:

Ensuring company policies are followed.

Optimizing profits by controlling costs.

Hiring, training and developing new employees.

Resolving customer issues to their overall satisfaction.

Maintaining an overall management style that follows company best practices.

Providing leadership and direction to all employees.

Ensuring product quality and availability.

Preparing and presenting employee reviews.

Working closely with the store manager to lead staff.

Overseeing retail inventory.

Assisting customers whenever necessary.

Organizing employee schedule.

Ensuring that health, safety, and security rules are followed.

Taking disciplinary action when necessary.

Ensuring a consistent standard of customer service.

Motivating employees and ensuring a focus on the mission.

Maintaining merchandise and a visual plan.

Maintaining stores to standards, including stocking and cleaning.

## BRIEF DESCRIPTION

very good communication and Retail Skill. He is good person and having good knowledge of Retail subject. Moreover, the lecture was interactive. It also helped the students to build a positive attitude and motivated them to achieve high success in life. The lecture was enlightening experience as it helped to rediscover oneself as a human being, as a student, as a fresher who was looking for his/her dream job. The articulation tips provided by the mentor were helpful to improve the personality.

This Lecture was very good to learn global accent. He narrated his journey with the few case studies, which has been found interesting by the students to incorporate in their professional life. Finally he gave some tips to become an successful Entrepreneur and the various opportunities that are available to use in effective way. Public speaking is how you can share your ideas with a large number of people, stand out from the corporate crowd, and get visibility in your field.

Unfortunately, if you're public speaking skills are not up to par, it's likely that no one will be focused enough on your presentation to really receive your message.

## BRIEF DESCRIPTION

There are number of qualities endorsed by educationists for teacher to be a real teacher. These qualities help a teacher to perform efficiently, but the ultimate thing for a teacher is inspiring his/her students. I am interested to know what few qualities would you suggest teacher should display to inspire his/her students.

Think the teachers can perform the following:

Discover students' potentials & share with them what are their possible goals to pursue - finding some people can be inspired from young by their teachers.

Provide & promote a conducive learning environment for students at least in school - this can inspire students so that when they grow up, they will setup similar environment for their continuous learning.

Constantly evaluate & balance between spoon feeding vs independent assignment, project or research for students - balance between fishing for them & teaching them how to fish can inspire them to pursue knowledge further.

inculcate the right attitude & behavior within students e.g. kindness, integrity, diligence etc. - students learn & practice these from young can greatly impact their future undertakings.

Leading by example - students can correlate what the teachers teach & what they actually do.

1) Accept your past. If you don't make peace with your past, it will never leave you and it will create your future. Successful people know the only good time to look at the past is to see how far you've come. 2) Accept the uncertainty of the future, and don't place unnecessary expectations upon yourself.

## BRIEF DESCRIPTION

Even though I like scientific research, there are things science can't teach you.

In this book, McCormack shares everything that people in business schools or companies will never tell you. He talks office politics, standing up for yourself, getting results, job-boredom, and making things happen.

The best thing? McCormack is street smart. His knowledge came from experience. And it's still relevant. Even though I like scientific research, there are things science can't teach you.

In this book, McCormack shares everything that people in business schools or companies will never tell you. He talks office politics, standing up for yourself, getting results, job-boredom, and making things happen.

The best thing? McCormack is street smart. His knowledge came from experience. And it's still relevant. Self-knowledge is a skill, not a trait, talent, or divine insight. I used to live my life without one bit of introspection. Naturally, I had no idea who I was. Now, I'm getting better at it with practice. And the impact on my life has been huge.

I believe that knowing yourself is the key skill that predicts happiness and success in life.

So I've made a list of 12 books that have helped me to know myself. I hope they will serve you too.
