“Don’t let what you cannot do interfere with what you can do Successful and unsuccessful people do not vary greatly in their abilities. They vary in their desires to reach their potential. There are no shortcuts to any place worth going

Failure is the opportunity to begin again more intelligently.Our greatest weakness lies in giving up. The most certain way to succeed is always to try just one more time.You’ve got to get up every morning with determination if you’re going to go to bed with satisfaction.

Believing in yourself

Cultivating a success mindset

Overcoming procrastination

Hard work

Not making excuses

Perseverance

Start where you are. Use what you have. Do what you can

Successful and unsuccessful people do not vary greatly in their abilities. They vary in their desires to reach their potential

The secret of success is to do the common things uncommonly well

There are two kinds of people in this world: those who want to get things done and those who don’t want to make mistakes I don’t regret the things I’ve done. I regret the things I didn’t do when I had the chance.

## BRIEF DESCRIPTION

Teachers Change Lives. ... By forging strong relationships, educators are able to affect virtually every aspect of their students' lives, teaching them the important life lessons that will help them succeed beyond term papers and standardized tests. It's easy to think that truly successful people were just more fortunate from the beginning. They had the talent, the looks, the money—everything they needed to succeed. And to some extent, it is true that those from stable families who were not burdened by poverty or physical limitations did have it easier than those who had major obstacles to overcome. But there are countless examples of people who have reached unparalleled success despite significant challenges in their lives. In fact, it could be that those very limitations propelled them to strive for heights they may not have reached otherwise. Whatever the reasons for their success, these are people who can inspire our children to accomplish their goals despite their own specific obstacles.

## BRIEF DESCRIPTION

I am preparing for INDIAN CIVIL SERVICES from a long time now and have had 2 failed attempts already. But I am still working on the mission and am hopeful, that I will accomplish it one day. But, its a long process and at times, I feel weak and have all sorts of thoughts, like, I will never be able to do it, just as any other struggling students out there. But, I have this love for reading quotes and positive quotes have been of great help to me at such times.

So, here is a collection of quotes, that gives me hope in the bad times and keeps me to ground in the good times, as a student!!Money shouldn't be a barrier to learning—but for many people it is.

With public speaking, many people will turn to a quick Google search or YouTube scan to find “tips and tricks” for free. But you can only hear “stand up and speak up” so many times before you wonder if there is more to learn.

And while nothing can replace in-person feedback, attending conferences, courses, and coaching can be expensive. Even if you can afford training you'll need to keep the momentum going if you want to excel in this area. Many of the people I coach ask me about what they can do to keep the learning going after our workshops.

Thankfully there's a whole range of ways to improve your communication skills for free or at a reduced cost

## BRIEF DESCRIPTION

Teachers Change Lives. ... By forging strong relationships, educators are able to affect virtually every aspect of their students' lives, teaching them the important life lessons that will help them succeed beyond term papers and standardized tests. It's easy to think that truly successful people were just more fortunate from the beginning. They had the talent, the looks, the money—everything they needed to succeed. And to some extent, it is true that those from stable families who were not burdened by poverty or physical limitations did have it easier than those who had major obstacles to overcome. But there are countless examples of people who have reached unparalleled success despite significant challenges in their lives. In fact, it could be that those very limitations propelled them to strive for heights they may not have reached otherwise. Whatever the reasons for their success, these are people who can inspire our children to accomplish their goals despite their own specific obstacles.
