BRIEF DESCRIPTION

He is fun loving and spiritual person.

He is very polite and friendly in nature.

He likes discipline very much and always be on time for the lectures.

He always uses practical problems of daily life to clarify the concepts of science.

He prefers learning by doing, rather than mugging the formulae of science

He gives special attention to weaker students in the class for making their concepts clear.

He always encourages us to participate in the sports and extracurricular activities.

He also takes few sessions on moral values like good manners and strong character during regular classes.

He is good artist and motivates us to take part in drama and singing competition in the school.

He correlates the events and happenings by citing examples while taking sessions on history topics

He also teaches us Vedic maths which is very useful in calculation like multiplication and division.

He gives us the assignment and exercises on daily basis so that our concepts get very much clear. He has a very pleasant personality and He never scolds anyone.

He is very patient and always listens to us very calmly.

My art and drawing skills have improved a lot and the credit goes to her.

He develops a relationship with the students which helps to build a healthy environment of learning.

Apart from drawing, He also teaches English to other classes. He often stays after school to help students to improve in their subjects.

He is the one of the best teacher in my school and has also received the best teacher award this year.

BRIEF DESCRIPTION

He has a good experience of teaching. He is a creative teacher. Students enjoys their lecture. He explain every topic in easy way and solve the students query. Bring positive energy into the classroom every lecture. He has good communication skill. There is always something positive to be found in every lecture. There is a saying, "With great power, comes great responsibility". As a teacher, he is aware and remember the great responsibility that comes with this profession. he has a beautiful smile so don't forget to flash it as much as possible throughout the day. I know that you face battles of your own in your personal life but once you enter that classroom, you should leave all of it behind before you step foot in the door. Always remember that positive energy is contagious and it is up to you to spread it. Don't let other people's negativity bring you down with them. This is the fun part and absolutely important for being an effective teacher! Get to know your students and their interests so that you can find ways to connect with them.

SKILL :
IT/ITES

CURRENT OCCUPATION:
SENIOR DEVELOPMENT MANAGER

EXPERIENCE (IN YEARS) : 11

HIGHEST QUALIFICATION:
MCA

BRIEF DESCRIPTION

He has mother, Brother and his wife in family. His Education is MCA and MA in Economics. He lives in rohtak since 29 years. He is very serious towards his work. He has many achievement in his life like foreign trip by company, Ankur Diploma program and many other things like two permotions in one year. He was not strong financially but because of his attitude towards work he did it. Either you'll be a loser that always relies on inspiration from others to get to work, or you will rule over yourself and do what you set out to do. If you're going to write, rule over yourself. Nobody is perfect at it, but the writers who are even modestly successful at ruling over themselves are the ones that dominate the industry. Be a tyrant over yourself, but also give yourself a break. Remember that even Dosto couldn't stop himself from gambling! He believed that the digital filters, information sources, and media was clouding our view of the real world and experiences we could have in nature. Almost every single fiction book that Crichton sold (out of the 250M or so he sold!) was inspired by some form of "direct experience" he had in the real world.

M.TECH

BRIEF DESCRIPTION

He is very excellent person and he was very normal students upto 12th class.

Improving efficiency within an accountancy firm is one of the top reasons we hear for adopting new technologies. However, smoother workflows and increased productivity need to be earned; it's never as simple as switching to a new app or software.

This reality can often trip you up. If you rush headlong into using the latest tech, without taking the time to consider if it's the right move for your firm, you can end up right back where you started - just significantly out of pocket.

And funding the switch isn't the only challenge associated with implementing new technology. It can impact productivity and morale in the short-term, errors can increase while staff become accustomed to a new way of doing things, and security concerns can be laid bare.

So, to overcome these challenges, take a moment Before you introduce a new piece of technology to your practice.

you've shortlisted a few of the software solutions that meet your requirements.

BRIEF DESCRIPTION

He is very excellent person and he was very normal students upto 12th class.

Improving efficiency within an accountancy firm is one of the top reasons we hear for adopting new technologies. However, smoother workflows and increased productivity need to be earned; it's never as simple as switching to a new app or software.

This reality can often trip you up. If you rush headlong into using the latest tech, without taking the time to consider if it's the right move for your firm, you can end up right back where you started - just significantly out of pocket.

And funding the switch isn't the only challenge associated with implementing new technology. It can impact productivity and morale in the short-term, errors can increase while staff become accustomed to a new way of doing things, and security concerns can be laid bare.

So, to overcome these challenges, take a moment Before you introduce a new piece of technology to your practice.

you've shortlisted a few of the software solutions that meet your requirements.

BRIEF DESCRIPTION

He is fun loving and spiritual person.

He is very polite and friendly in nature.

He likes discipline very much and always be on time for the lectures.

He always uses practical problems of daily life to clarify the concepts of science.

He prefers learning by doing, rather than mugging the formulae of science

He gives special attention to weaker students in the class for making their concepts clear.

He always encourages us to participate in the sports and extracurricular activities.

He also takes few sessions on moral values like good manners and strong character during regular classes.

He is good artist and motivates us to take part in drama and singing competition in the school.

He correlates the events and happenings by citing examples while taking sessions on history topics

He also teaches us Vedic maths which is very useful in calculation like multiplication and division.

He gives us the assignment and exercises on daily basis so that our concepts get very much clear. He has a very pleasant personality and He never scolds anyone.

He is very patient and always listens to us very calmly.

My art and drawing skills have improved a lot and the credit goes to her.

He develops a relationship with the students which helps to build a healthy environment of learning.

Apart from drawing, He also teaches English to other classes. He often stays after school to help students to improve in their subjects.

He is the one of the best teacher in my school and has also received the best teacher award this year.

CURRENT OCCUPATION:
LECTURER

YEARS

EXPERIENCE (IN YEARS) : 6

HIGHEST QUALIFICATION:
MCA

BRIEF DESCRIPTION

Her highest qualification is Msc .she is very good in academics. she has very good technical skills as well as communication skills.

Teachers regularly inspire their students, whether they are aware of it or not. But all of us—even those in education—struggle under the weight of doubt and anxiety sometimes. We're human, after all. We've chosen to share these inspiring teaching quotes with all you teachers out there because there are two things you need to know. First, we believe in you, and second, you are not alone.

As a teacher, you're the most important part of a young student's life. Your love of learning can be infectious and inspiring to any student you teach. Remember how you nurture the courage in a pupil's heart. You are a tutor, an enabler, and a caregiver combined, and you can—and will—make a difference.

If there's anyone who is in a position to bring positive change into the world every day, it's a teacher. Don't ever think that your efforts as a teacher are insignificant and make no difference. There is no telling what positive effect you will have on someone's life, especially a student's. Be brave, stay passionate about your kids and your work, and don't give up—ever.

BRIEF DESCRIPTION

He is fun loving and spiritual person.

He is very polite and friendly in nature.

He likes discipline very much and always be on time for the lectures.

He always uses practical problems of daily life to clarify the concepts of science.

He prefers learning by doing, rather than mugging the formulae of science

He gives special attention to weaker students in the class for making their concepts clear.

He always encourages us to participate in the sports and extracurricular activities.

He also takes few sessions on moral values like good manners and strong character during regular classes.

He is good artist and motivates us to take part in drama and singing competition in the school.

He correlates the events and happenings by citing examples while taking sessions on history topics

He also teaches us Vedic maths which is very useful in calculation like multiplication and division.

He gives us the assignment and exercises on daily basis so that our concepts get very much clear. He has a very pleasant personality and He never scolds anyone.

He is very patient and always listens to us very calmly.

My art and drawing skills have improved a lot and the credit goes to her.

He develops a relationship with the students which helps to build a healthy environment of learning.

Apart from drawing, He also teaches English to other classes. He often stays after school to help students to improve in their subjects.

He is the one of the best Employer and has also received the best Employer award this year.

BRIEF DESCRIPTION

She has mother and brother in his family. She has very small family. In very short age she lost her father due to cancer. But her struggle makes her perfect. Despite what certain companies might want you to believe, writing well, by hand, is one of the keys to a satisfying life and a healthy mind. Writing by hand and then publishing digitally on platforms like Medium is the perfect combination. You get the tactical feedback and ability to write things down manually, and then decide what parts of it you should publish into the digital ocean. Sidenote: when you do decided to publish into that digital ocean, please feel free to submit your piece to The Mission! If it's a good fit, we'd love to help promote your work.

November is national novel writing month (NanoWriMo) abroad, and locally at The Mission, it's our Reading and Writing month all month long! Make sure you're subscribed to our daily newsletter so you don't miss any other ideas, tips, and tactics about reading and writing. She's not joking. If you don't consume the best raw material and inputs, how could you possible create any great outputs? Read the best books you can find, and don't be afraid to read them many times (even the books you loved from your childhood

BRIEF DESCRIPTION

He is very excellent person and he was very normal students upto 12th class.

Improving efficiency within an accountancy firm is one of the top reasons we hear for adopting new technologies. However, smoother workflows and increased productivity need to be earned; it's never as simple as switching to a new app or software.

This reality can often trip you up. If you rush headlong into using the latest tech, without taking the time to consider if it's the right move for your firm, you can end up right back where you started - just significantly out of pocket.

And funding the switch isn't the only challenge associated with implementing new technology. It can impact productivity and morale in the short-term, errors can increase while staff become accustomed to a new way of doing things, and security concerns can be laid bare.

So, to overcome these challenges, take a moment Before you introduce a new piece of technology to your practice.

you've shortlisted a few of the software solutions that meet your requirements.

BRIEF DESCRIPTION

Ms Poonam is an English lecturer with 7 years of experience in the field of teaching. She is very talented and hardworking. She is physically challenged but faces challenges with great strength and moral power. She keeps herself up-to-date regarding subject knowledge. She faces hurdles with a smiling face. She is pursuing an M.Phil in her subject. She is very popular among her students. Her way of introducing the topic is very impressive. She also takes part in other school activities, preparing students for different competitions like debate and essay writing. Students are very anxious during her lecture and attend her lecture with great interest. She has knowledge regarding current topics. She is a source of inspiration for students that we haven't to give up in unavoidable circumstances and face challenges with strength and confidence. The challenges made us internally stronger. Poonam Mam is a brilliant personality. I wish her health and success in life. She is a source of inspiration for students.

BRIEF DESCRIPTION

I often wondered about how he got some of his ideas for his fiction writing. When I finally got around to read his autobiography, it was instantly clear.

Crichton was a huge advocate of “direct experience” in the real world. He believed that the digital filters, information sources, and media was clouding our view of the real world and experiences we could have in nature. Almost every single fiction book that Crichton sold (out of the 250M or so he sold!) was inspired by some form of “direct experience” he had in the real world.

I eventually realized that. Culture tends to turn it’s nose up at emotions that are not convenient for culture. Most parts of society and “culture” are, in fact, a cult. The second you write anything that makes the larger group uncomfortable, watch out. For writers, the only safe way to share controversial ideas is through stories that are so simple, they appear as “children’s stories”. Almost every single fiction book that Crichton sold (out of the 250M or so he sold!) was inspired by some form of “direct experience” he had in the real world.

BRIEF DESCRIPTION

Background is good. Being a doctor is good, kind, social adaptable a good clinician who regularly update with new information from his field. He is team player. He has achieved in his life many goals like promotion of health, prevention of disease. He has faced many challenges to achieve that in life like caring for the chronically ill, Managing mental illness, Improving communication with patients, Keeping up with technology. There are many challenges facing doctors when they need to communicate with other doctors (for advice, to share patient information, etc.). The biggest challenge is that is actually illegal for doctors to text patient information to another doctor (or even to the patient themselves). Some doctors go so far as to use code words when texting each other, in order to avoid a HIPAA violation, which makes communicating clearly and directly very difficult. For this reason, many doctors have begun using apps, such as OhMD, to send each other text messages that are legal, HIPAA compliant, and secure. Apps like OhMD also make it easier for doctors to quickly reach another medical professional; doctors are notoriously difficult to track down, due to their demanding schedules, so a text messaging service is often the fastest way to communicate.

POST BASIC BSC NURSING

BRIEF DESCRIPTION

A nurse is a person who is trained to give care to people who are sick or injured. Nurses work with [doctors] and other health care workers to make patients well and to keep them fit and healthy. Nurses also help with end-of-life needs and assist other family members with grieving. Be empathetic. For most patients, being in the hospital is a traumatic and emotional experience. ...

Write everything down (in detail) ...

Be organized. ...

Be adaptable. ...

Have physical and mental endurance. ...

Be a quick thinker (and have great judgement) ...

Be hard-working. ...

Be a good communicator. Registered nurses often work in hospitals or outpatient facilities, where they provide hands-on care to patients by administering medications, managing intravenous lines, observing and monitoring patients' conditions, maintaining records and communicating with doctors. Solid communication skills are a basic foundation for any career. But for nurses, it's one of the most important aspects of the job. A great nurse has excellent communication skills, especially when it comes to speaking and listening. Based on team and patient feedback, they are able to problem-solve and effectively communicate with patients and families.

Nurses always need to be on top of their game and make sure that their patients are clearly understood by everyone else. A truly stellar nurse is able to advocate for her patients and anticipate their needs.

BRIEF DESCRIPTION

- Lead group classes. The main duty for yoga instructors is to create a curriculum and lead groups through various levels and types of yoga practice. This can include doing administrative work for the class, getting equipment together and getting to know what participating clients want.
- Demonstrate practice and technique. As the expert, you'll use your body to show the correct way to get into poses, the most beneficial breathing patterns, and tips for achieving spiritual wellness.
- Offer adjustments and training recommendations. Not all of your students will be as experienced as you, so you'll need to gently adjust their bodies, provide them with alternative poses and assist them with other parts of their fitness regimens.
- Physical fitness and yoga knowledge. It goes without saying that you'll have to be in good shape to demonstrate good yoga technique and offer instruction at advanced levels. The more you've learned about different yoga series, the more you can offer to your clients and employers.
- Excellent communication. The most important role of a yoga instructor is explaining how to move the body and what this movement should feel like. You'll need the language and personality to connect with your clients.
- Motivational skills. Yoga can be a physical and mental struggle, so be ready to push and challenge your students, as well as encourage and congratulate them.

Becoming a yoga instructor requires some experience, which you can receive through a yoga teacher training program. Instructors receive a credential based on how many hours of teaching experience they have, and whether or not they've learned a specialty, like hot yoga or yoga for kids.

Some employers are looking for fitness instructors who can teach yoga as well as cycling, pilates or other classes, and may prefer to hire a certified group fitness instructor with yoga experience.

BRIEF DESCRIPTION

The physical educator is to provide maximum physical activity time within the class period, teach skills and activities that transfer into physical activity outside of physical education class, motivate children to be physically active, and take the role of physical activity director for the school.

Being a teacher means being a leader and role model to your students. A physical education teacher is a model of values such as leadership, teamwork, and good sportsmanship. Treating the people around you with respect makes them more likely to respect you and your program.

Teaching physical education is a good career choice for people with a passion for healthy lifestyles. Some states require a master's degree for middle and high school teachers. Most post secondary schools require at least a master's degree to teach physical education.

The teacher is also responsible for planning Daily Physical Activity (DPA), which is thirty minutes of mild to moderate physical activity a day, not including curriculum physical education classes. The curriculum requires students in grade one to be knowledgeable about healthy living.

A teacher is the person who shapes the future of everyone by providing best education to her/his students. Teacher plays a great role in the education of every student. A good teacher has many qualities and fully able to make his/her students successful in life. A teacher is very intelligent and know well that how to draw attention of students towards study. She uses creativity while teaching students so that students may concentrate. Teacher is a good conductor of knowledge having lots of patience and confidence who take responsibility of the future of students. Teacher knows the ability of each and every student and tries for them accordingly.

Teachers are great sources of knowledge, prosperity and enlightenment to which anyone can be benefited for whole life. They serve as the real light in everyone's life as they help students to make their ways in the life. They are the God gifted people in everyone's life who lead us towards success without any selfishness. Really, we can call them as builders of the dazzling future of our nation through education.

RAMRATHEE55@GMAIL.COM

DISTRICT : ROHTAK

SKILL :
SECURITY

CURRENT OCCUPATION:
EX-SERVICEMAN

EXPERIENCE (IN YEARS) : 30

HIGHEST QUALIFICATION:
BA

BRIEF DESCRIPTION

He is very excellent person and he was very normal students upto 12th class.

Improving efficiency within an accountancy firm is one of the top reasons we hear for adopting new technologies. However, smoother workflows and increased productivity need to be earned; it's never as simple as switching to a new app or software.

This reality can often trip you up. If you rush headlong into using the latest tech, without taking the time to consider if it's the right move for your firm, you can end up right back where you started - just significantly out of pocket.

And funding the switch isn't the only challenge associated with implementing new technology. It can impact productivity and morale in the short-term, errors can increase while staff become accustomed to a new way of doing things, and security concerns can be laid bare.

So, to overcome these challenges, take a moment Before you introduce a new piece of technology to your practice.

you've shortlisted a few of the software solutions that meet your requirements.

BIJENDER SIWATCH

7015312266

BIJSIWATCH91@GMAIL.COM

DISTRICT : ROHTAK

SKILL :
SECURITY

CURRENT OCCUPATION:
COACH IN RAILWAY

EXPERIENCE (IN YEARS) : 20 YRS

HIGHEST QUALIFICATION:
BA

BRIEF DESCRIPTION

He is very excellent person and he was very normal students upto 12th class.

Improving efficiency within an accountancy firm is one of the top reasons we hear for adopting new technologies. However, smoother workflows and increased productivity need to be earned; it's never as simple as switching to a new app or software.

This reality can often trip you up. If you rush headlong into using the latest tech, without taking the time to consider if it's the right move for your firm, you can end up right back where you started - just significantly out of pocket.
